SAFETY SIGNS

CATALOGUE

EDITION 26

WELCOME TO OUR LATEST CATALOGUE (EDITION 26)

Packed with hundreds of new products, innovations, updates, and range extensions, this is our most comprehensive catalogue yet. Whether you're looking for a specific sign or need a completely bespoke solution, we're here to help you find exactly what you need.

We continually monitor legislation changes to ensure our Health & Safety signs and related products remain fully compliant, practical, and effective – giving you confidence that every sign you order meets the highest standards.

Inside, you'll find details on our most popular materials, ordering information, and tips to help you choose the perfect signage for your needs (see pages 2–5).

Wherever possible, our signs are designed using approved ISO 7010 symbols. In rare cases where a symbol is not yet ISO-adopted but proven to meet BS 5499 comprehension levels, we manufacture to BS 5499 Standards. All our signs also meet the BS ISO 3864 requirements for colour and photometric properties, ensuring consistent quality, clarity, and compliance.

For pricing please get in touch to receive a copy of our pricelist or to request a quotation.

NEW & FEATURED PRODUCTS

We're proud to introduce an exciting range of innovative products throughout this catalogue. The selection below highlights just a small sample of the latest designs and customer favourites. If you don't see exactly what you need, contact us – our team will work with you to create the perfect solution.

CUSTOM SHADOW BOARDS

A great addition to any 5S / 6S system. Allows easy recognition of missing items and helps to ensure everything is stored correctly. Contact us for bespoke solutions - including alternative sizes, branding, colourways or hanging configurations.

CUSTOM EMERGENCY ESCAPE SIGNS

This range of signs assist the fire and rescue service in identifying each level of a building. We understand that the variations required for these wayfinding signs is endless, therefore we have introduced a custom range to help.

ACRYLIC STAND-OFFS

High-quality signs that sit slightly away (20mm) from the wall to create a "floating" effect. These contemporary, professional and eye-catching signs are ideal for use in a wide range of environments, such as hotels, retail, offices, etc.

THINK GREEN SIGNS

Environmental conservation is not just a responsibility but a necessity for the well-being of our planet. Remind viewers of environmental policies and promote an energy and resource efficient, responsible business image.

HEALTH & WELLBEING POSTERS

A range of signs and posters providing knowledge and guidance for healthier mental and physical wellbeing. Ideal for communual areas such as staff rooms, waiting rooms or open plan office spaces.

BRAILLE & TACTILE

Create environments that are welcoming and accessible to everyone (in line with the Equality Act 2010). Bespoke braille signs promote a culture of inclusivity and enhance communication and navigation for those who rely on tactile reading.

LOCK OUT STATIONS

Ensure that equipment is readily available from a central location. These stations are highly visible wherever sited, the shadows of equipment types help easy inventory checking and highlights when replacements are required.

INSPECTION MAINTENANCE STATIONS

Provide your workplace with the ideal central location to store inspections. If a fault is found, the board can be updated to highlight any maintenance requirements or daily tasks, on a dedicated dry-wipe section.

SHELF LIFE LABELS

Food labelling can ensure that the food is in date, fresh, there is no cross contamination, and that allergens are correctly identified. Manufactured from a food-safe, removable polypropylene material with a matt finish for easy writing onto.

PAVEMENT PARKING SIGNS

It is now illegal to park on pavements in London and Scotland. The Department for Transport (DfT) has announced it is considering bringing the rest of the United Kingdom in line.

PARKING PERMIT HANGERS

Identify authorised vehicles and manage your parking with our durable and versatile permit tags for rear-view mirrors. Ideal for visitor passes, employee permits, valet parking, and access control at hotels, restaurants, schools, or offices.

FIRE DOOR TAGS

Used to indicate that a door is a fire door and to provide important information about its fire resistance rating. These tags are crucial for safety, ensuring that fire doors are easily identifiable, can be verified for compliance, and are maintained properly.

TABLE OF CONTENTS

This product catalogue contains thousands of safety signs and products designed to help improve workplace safety. Use the table of contents below to quickly navigate to relevant section or use the index on ***pages 142 - 144*** *to narrow down your search further.*

INTRODUCTION

How to Order Standards 2
Viewing Distances 2

CUSTOM MADE

Despite the thousands of signs available in this catalogue we appreciate that there will always be a time when you need something unique, branded or designed to specific guidelines. This is where our Custom Made options come in handy. When you need something printed on a material such as Rigid Plastic, Self Adhesive Vinyl, Foam Board, Aluminium, PET, Acrylic, Aluminium Composite, Fluted Polypropylene, Synthetic Paper, PVC Banner or Reflective Aluminium navigate to ***page 139*** *where you'll find a variety of options that may suit your needs.*

WE ALSO PROVIDE BESPOKE VERSIONS OF THE FOLLOWING PRODUCTS:

Fire Door Signs 12
Rolls of Labels 12
Floor ID Signs 18 - 19
Free Standing Signs 34
Cone Messages 35
Document Holders 44
Roller Banners 51
Aisle / Bay Markers 57 / 58
Dry Wipe Boards 62
Floor Graphics 64
Shadow Boards 71
Door Screens 76
Door Hangers 83
Engraved Signs 96
Door Sliders 96
Custom Composite Signs 96
Acrylic / Aluminium Stand-Offs 97
Engraved Tags / Key Fobs 99
Hazchem Placards 105
Verge Signs 108
Pavement Car Park Signs 109
RA1 Zintec Signs 113
Re-Flex Signs 114
Cone Signs 115
Fold Up Signs 116
Site Safety Boards 122 - 123
Courtesy Signs 126
Scaffolding Roll Tops 127
Site Saver Signs 130
Banners 132 - 133

HOW TO ORDER

Each product within this catalogue has its own unique product code. To help you understand the meaning of our codes, please follow the guidance below:

STEP ONE

Find the sign you require by using the index page, contents page or by simply browsing the catalogue.

STEP TWO

When you find the sign required, use the **material grid** (on every double page spread) to find which materials are available for your chosen sign. Materials available are highlighted as **BOLD NUMBERS** at the start of every code.

STEP THREE

The **LETTERS** at the end of the code identify the available size options. To help choose the best size for your situation you should also take into account our recommended viewing distances (below) for safety signs.

STEP FOUR

Once you've identified the sign, material and size required, use fold-out price list (or request a copy) to find the price.

Products which begin with **5** are listed on a page-by-page basis.

CODE EXAMPLE

The forklift sign to the right is available in four standard material options **'1, 2, 7 & 8'** you can refer to pages 4 - 5 for more detailed material information.

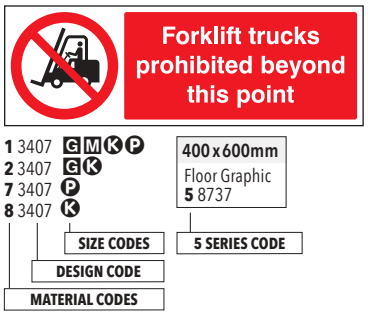

The unique design code is '3407'

Each letter identifies an available size option for the sign:

SQUARE letters represent landscape orientations. **CIRCLES** represent portrait orientations.

5 codes refer to products with miscellaneous materials / sizes and therefore have the details required beside the code. (e.g. Floor Graphic 400 x 600mm)

If the sign you require doesn't come in the material / size you're after, don't worry we can manufacture any design to your exact specifications.

MATERIAL CODES

1 Rigid Plastic
2 Self Adhesive Vinyl
3 Photoluminescent Rigid Plastic
4 Photoluminescent Self Adhesive
5 Miscellaneous
6 Aluminium
7 PET
8 Quick Fix

LANDSCAPE SIZES

A 100 x 75mm	J 400 x 200mm	U 100 x 100mm
B 80 x 80mm	K 400 x 300mm	V 300 x 150mm
C 150 x 150mm	L 450 x 150mm	W 900 x 600mm
D 150 x 100mm	M 600 x 200mm	X 200 x 100mm
E 200 x 150mm	N 400 x 400mm	Y 300 x 200mm
F 200 x 200mm	P 600 x 400mm	
G 300 x 100mm	Q 600 x 450mm	
H 300 x 250mm	S 200 x 75mm	

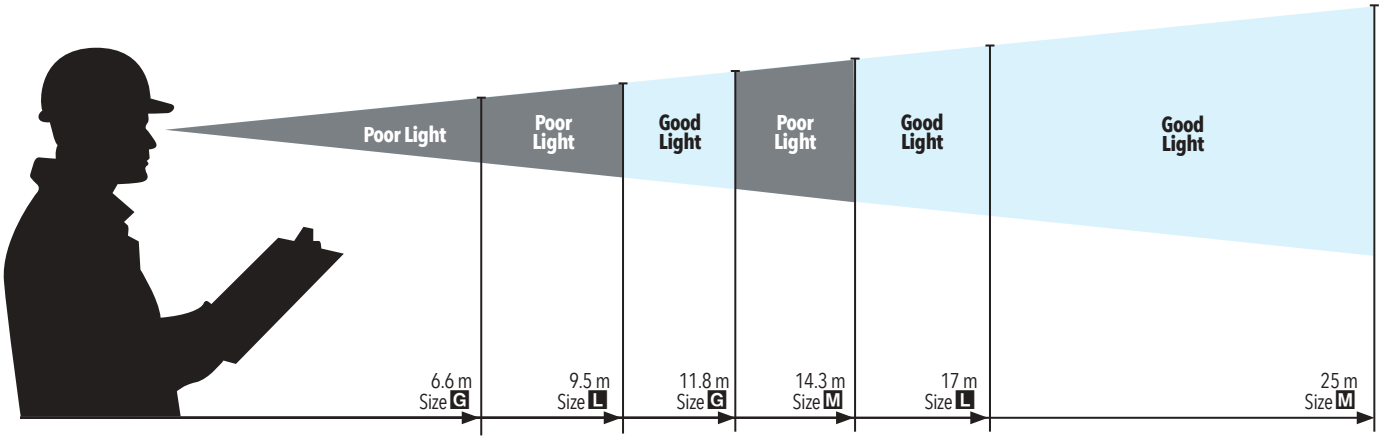

PORTRAIT SIZES

A 75 x 100mm	J 200 x 400mm	U 100 x 100mm
B 80 x 80mm	K 300 x 400mm	V 150 x 300mm
C 150 x 150mm	L 150 x 450mm	W 600 x 900mm
D 100 x 150mm	M 200 x 600mm	X 100 x 200mm
E 150 x 200mm	N 400 x 400mm	Y 200 x 300mm
F 200 x 200mm	P 400 x 600mm	
G 100 x 300mm	Q 450 x 600mm	
H 250 x 300mm	S 75 x 200mm	

VIEWING DISTANCES

There are many factors that can influence a person's ability to view a sign, all of which are covered in depth by BS ISO 3864-1, these factors should be considered when deciding on your choice of sign size. The maximum distance a person will be required to view the sign, the angle they are viewing the sign from, lighting, and vision impairment can all have significant influences on the ability to read and comprehend a safety sign.

It is also worth considering the room layout to ensure signs are not obscured by furnishings. Situating signs at a suitable height maximises their potential to be seen.

These distances are for guidance purposes only. Please refer to BS ISO 3864-1:2011 for specific calculations.

The example above shows an estimate viewing distance for three of our most popular sign sizes depending on conditions of light.

MATERIALS

The first number you see on our product codes identifies the material the sign is made from, an overview of which can be found in this section. Deciding on your sign message is only the first step. When ordering a sign thought should also be given to where that sign is going to be displayed. Consider the environment it will be located within – is it indoor or outdoor? Is it for display in a warehouse or a prestige hotel? Our guide below will help you to decide which material is best for your location and covers our most popular sign materials – this list is not exhaustive so if you can't see the material you require please contact our sales team and we will be happy to quote in a material of your choice.

1. RIGID PLASTIC

Easily drilled, white, glossy, rigid plastic. A lightweight material with high impact strength, suitable for indoor and outdoor use. Rigid Plastic is the main material used for Quick Fix signs.

2. SELF ADHESIVE VINYL

High gloss, flexible PVC with self adhesive backing. Suitable for most smooth, dry and clean surfaces. Ideally suited for indoor use such as warehouse labelling.

3. ULTRA BRIGHT PHOTOLUMINESCENT RIGID PLASTIC

1.2mm rigid plastic with a photoluminescent pigmentation which exceeds PSPA Class C ratings.

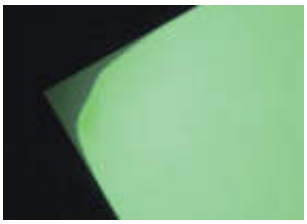

More information about Ultra Bright materials can be found on page 4.

4. ULTRA BRIGHT PHOTOLUMINESCENT SELF ADHESIVE VINYL

0.35mm flexible self adhesive vinyl with photoluminescent pigmentation which exceeds PSPA Class C ratings.

More information about Ultra Bright materials can be found on page 4.

6. ALUMINIUM

Aluminium with gloss white powder coating. Ideal for both indoor and outdoor applications. Excellent weathering and UV resistance. A long-life product.

7. PET

2mm Thermoplastic Polyester (known as PET) is high quality, recyclable, durable, impact, fire and vandal resistant which makes it ideal for harsher environments.

8. QUICK FIX

A white rigid plastic surface provides a durable finish, whilst a strong self adhesive backing removes the need for drilling, screws or additional fixings.

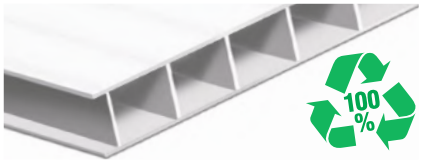

5. MISCELLANEOUS MATERIAL INFORMATION

Any product outside of our standard choice of material or size ranges begins with a 5. This may include items such as rolls of tape, sign frames, banners, or any sign requiring bespoke designs. It may include products using (but not limited to) the following materials:

PVC BANNER

Flame resistant, 440gsm PVC banner for indoor and outdoor applications. Digitally printed for eye catching displays.

FLUTED POLYPROPYLENE (4MM)

Lightweight, waterproof, strong and 100% recyclable (Class PP5) making it ideal for temporary signage such as site safety signs.

SYNTHETIC PAPER

110gsm high density polyethylene. A highly durable, recyclable, tear, water and grease resistant material which is ideal for eye catching posters.

FOAM PVC

Available in 3mm, 5mm or 10mm. Bright white, lightweight & waterproof. Easily drilled for fixing. Ideal for outdoor site safety boards.

ACRYLIC (5MM)

High quality, non-shatter, cast acrylic with a good resistance to weather, discolouring and most chemicals. 100% recyclable.

ALUMINIUM COMPOSITE

3mm white aluminium skin with a polyethylene core. A lightweight and weather resistant material which is ideal for outdoor signage due to its non existant scrappage value.

REFLECTIVE

Available on various materials (aluminium, zintec & aluminium composite) with a choice of reflective finishes. RA1 reflective (engineering grade) for temporary traffic signs. R2 reflective (high intensity) for permanent traffic signs (CE marked).

BRAILLE & TACTILE

2-ply ABS thermoplastic material for both indoor and outdoor use. It offers a durable, scratch resistant, glossy surface. Available in various colours and surface finishes. Laser and routing capabilities offer a high quality finish.

Ultra Bright

Photoluminescent signs, tapes and markers work by storing energy from either a natural or artificial light source. If the light source is no longer available in the case of a blackout due to a fire or other emergency, then the "charge" in the sign releases light in the form of protons to produce a greenish luminant glow, also known as phosphorescence. The strength and quality of this glow can vary greatly between manufacturers and for this reason we have introduced the Ultra Bright brand to give assurance that all our photoluminescent signage exceeds PSPA (The Photoluminescent Safety Products Association) Class C ratings, making it one of the best in the UK market and ensuring our signs stay brighter for longer to give the maximum chance for a successful evacuation.

Photoluminescent signage is charged by light which allows it to glow in the dark if there is a sudden loss of light due to a power outage or if thick smoke from a fire is obstructing vision. Using this type of signage in a building can assist employees or members of the public to a safe refuge area away from the danger.

LUMINANCE SPECIFICATIONS

The table below shows that Ultra Bright stays brighter for longer in comparison to PSPA ratings, and significantly exceeds Class C performance levels.

LUMINANCE MCD/M2	2 MIN	10 MIN	30 MIN	60 MIN	PSPA RATING
Class A	108	25	7	3	Below PSPA Recommendation
Class B	210	50	15	7	
Class C	690	140	45	20	Minimum PSPA Recommendation
Ultra Bright	957	199	59	26	EXCEEDS PSPA RECOMMENDATION

SPECIFICATIONS & BENEFITS:

1. Exceeds Class C photoluminescent PSPA rating
2. Afterglow testing in accordance with DIN 67510-Pt1
3. Compliant with ISO 16069:2017 - Safety Way Guidance Systems
4. Maximises visibility of signs during smoky / black-out conditions. Provides clear guidance to exits and emergency equipment which helps significantly reduce evacuation times
5. Self re-chargeable and maintenance free - No power source required
6. Instant and long lasting visibility of signage in blackout conditions. It takes over 48 hours to totally fade from fully charged
7. Cost effective and easy to install
8. Non-toxic or radioactive pigments (REACH / RoHS compliant)

3. ULTRA BRIGHT PHOTOLUMINESCENT RIGID PLASTIC

1.2mm semi rigid plastic with a photoluminescent pigmentation exceeding Class C performance levels.

4. ULTRA BRIGHT PHOTOLUMINESCENT SELF ADHESIVE VINYL

0.35mm flexible self adhesive vinyl with photoluminescent pigmentation exceeding Class C performance levels.

Ensuring that signage is clearly visible in blackout conditions can prove the difference between life and death during an emergency evacuation, helping guide people to exits and to essential equipment. The real beauty of photoluminescent products, in the context of a Safety Way Guidance System, is that they do not need electricity to glow in the dark if properly sited and maintained. In an emergency situation where a mains failure has occurred, they will immediately light the way to safety even in smoky conditions.

All Safety Way Guidance Systems (SWGS) must conform to the standards set out in BS ISO 16069. This stipulates requirements that need to be met with regard to the design, installation and performance for both photoluminescent and electrical SWGS. The benefit of these systems is that they are coherent and understood by all, regardless of culture or language. Occupants within your premises can be guided safely out of the building to a designated assembly/refuge point, in the event of an emergency. This is ensured as symbols on the signs must be compliant with BS EN 7010 and sign design must meet the requirements of BS ISO 3864 parts 1-4, to conform to BS ISO 16069.

To achieve high performance in low light conditions and conform to ISO 16069 we recommend using Ultra Bright. Ultra Bright range exceeds Class C and the table below indicates how Ultra Bright stays brighter for longer in comparison to PSPA classifications, with our signage remaining visible even after an hour in darkness.

RECYCLABLE MATERIALS

We firmly believe in, and are committed to monitoring and improving environmental performance, pollution prevention and environmental protection during the manufacture of our safety signage. We implement a systematic waste minimisation programme to achieve objectives and targets to reduce waste, avoiding the use of terminal waste treatment and dealing with it as far as possible at source.

We pursue continuous improvement in environmental performance, by setting objectives and targets, especially in addressing the areas of resource use, by reducing energy and water consumption, increasing reuse and recycling and improving solid and liquid waste management methods.

To help our customers identify which of our signage materials can be recycled, we have included the recycling logo on pages where signs can be recycled and have dedicated a section to some of our more popular signs in eco-friendly materials.

To help encourage an environmentally friendly approach to signage we now include the appropriate recycling logo on the sign to help identify when a sign can be recycled and to help recycling centres correctly identify and process the materials efficiently without the need to send them into landfill.

Although we only offer this feature on our two main recyclable materials, our acrylic and aluminium signs are also suitable for recycling. With many eco-friendly materials available, we're proud to provide more opportunities than ever for customers to take an eco-friendly choice when buying their safety signage.

FLUTED POLYPROPYLENE

A strong, lightweight and waterproof material. Fluted Polypropylene is ideal for temporary installations such as construction sites or festivals.

Appropriately marked by the number five and the acronym PP. This is one of the safer types of plastic. It is also increasingly being accepted in curb-side recycling programs.

THERMOPLASTIC POLYESTER (PET)

PET is an ultra durable, high quality material which is impact, fire and vandal resistant. It is ideal for harsher environments and permanent outdoor installations such as smoking areas, bus stops, play areas and car parks.

Appropriately marked with the number one and acronym PET. It's easily recyclable and often part of curb-side recycling programs.

We have access to many more alternative "green" materials so if you have a specific requirement please let us know and we will endeavour to provide the perfect solution to meet your specification.

PRINTING PROCESSES

We have several printing processes which we use regularly. The choice is dependent upon volume, sign environment or content. Below are some of our more popular options:

SCREEN PRINT

This method is used for printing the majority of the safety signs within our catalogue. It ensures a high quality print, consistency of colour and a flawless finish.

DIGITAL PRINT

This method of printing is ideal for short production runs, custom designs or signs that require full colour images to be included. We are able to digitally print directly onto a wide range of materials.

ENGRAVING

Laser and rotary machines transform computer generated designs into tactile, prestigious signs. The use of layered substrate materials allows the top surface to be cut away to uncover the coloured lower layer.

VINYL GRAPHICS

Computer cut vinyl graphics can be applied to a substrate (such as Rigid Plastic, Aluminium etc) or pre-cut, ready to apply vinyl lettering or graphics can be applied directly to almost any flat, dry and clean surface.

CUSTOM SIGNS

If you cannot find the message, size or material that you require then give us a call and, wherever possible, we will be happy to quote for anything outside our standard range. Whether it's for a prestigious hotel or an after school club, our custom made signs allow you to get creative and provide a truly unique signage solution. Once you know how you want your sign to look, simply follow the steps below to begin the process of creating a bespoke sign.

1. SKETCH & SNAP / SCAN

Mock up your desired sign, take a picture of it on your phone and send it to us via email. Please don't worry if you're not artistically inclined just remember to include material, colour, text and sizes.

2. SNAP & EMAIL

If you've seen a sign you require simply take a photo of it on your phone and send us the picture. We'll then mock up the design based on your instructions and send you a proof to approve, following receipt of your order.

3. SEND A LINK

Seen a sign you like on a website? Send us the link or a screenshot, along with any additional comments relating to the size, material, or any alterations and we'll provide you with a quote. Please be aware, there may be copyright restrictions.

When ordering a sign, consideration should be given to the environment it will be located within – is it internal or external? Is it for display in a warehouse or a prestige hotel? Select the required material from the grid below. This grid is not exhaustive so if you can't see the material or size you require please contact us and we will be happy to quote.

MATERIALS	CODES	DETAILS REQUIRED FOR A CUSTOM SIGN QUOTE	PRICE
Rigid Plastic	CUST001	**Size:** Please refer to our "Popular Size" chart or specify your own **Orientation:** Landscape or Portrait **Quantity:** Please state your required quantity **Content:** Please specify or provide artwork	Supplied on Request

300 x 150mm	1200 x 1200mm
300 x 250mm	2400 x 1200mm

IMAGE & LOGOS

Please ensure all images / logos you send are high resolution to acheive a quality print finish. A high resolution file JPEG, PDF, EPS or Ai file of your company logo is ideal. **Taking a logo from a home page of a website will not do.** Low-resolution images are the main reason for slow production of custom specials. Have your logo ready prior to order to ensure quick order turnaround.

If you are finding it difficult to find a high-resolution version of your logo you can sometimes find it via **images.google.com** simply drag your low-resolution logo file into the search bar and Google will search the internet for images that are similar. If there are any higher resolution logos found on the internet they will load. If all else fails we can reproduce your logo so it prints correctly - additional charges will apply.

FIRE EXTINGUISHER IDENTIFICATION

The Regulatory Reform (Fire Safety) Order 2005 places responsibility of fire safety on employers to ensure that a fire risk assessment has been conducted to establish fire risks and that appropriate actions are taken to reduce them. Failure to comply could lead to severe legal penalties. Under the Regulatory Reform (Fire Safety) Order 2005, any non-automatic fire fighting equipment should be positioned and signed in accordance with BS EN ISO 7010:2020- to ensure maximum levels of comprehension. By positioning an appropriate fire equipment sign at a height between 1.7m - 2m from the floor it helps to locate and identify essential fire equipment in the event of it being obscured by furnishings in the room.

EXTINGUISHER INSPECTION TAGS Pack of 10

Monthly inspection of all fire extinguishers should be completed as per BS5306.
Attach one of these single sided inspection tags to a fire extinguisher to display findings and to remind employees to complete monthly fire extinguisher checks. Having a visual reminder on each extinguisher enables employees to quickly view when the item was last inspected.

FIRE EXTINGUISHER LOCATION BOARDS

Extinguisher brackets* should be fixed through the sign and onto the wall. Below you can find our brackets (*sold separately)

3mm Foam
900 x 900mm
5 8020

Specify the required IDs when ordering.

450 x 900mm - Foam PVC			
Water	**5** 8014	ABC	**5** 8016
Foam	**5** 8015	Co2	**5** 8017

300 x 800mm	
Foam PVC	**5** 1028
Photolum Foam	**5** 1029

Select the relevant Extinguisher ID sign (size **D** on page 6) and apply to top of board in the space provided.

Sign of choice should be ordered separately.

TAMPER PROOF TAG

250mm tamper proof tag indicates if a fire extinguisher has been used or tampered with. The seal fits through the safety pin and around the handles, once this has been broken it cannot be re-sealed.

250mm Length
5 1100

J BRACKET HOOK

Holds most standard, foam, powder and water extinguishers of various sizes.

5 3509

INVERTED 2KG HOOK

The inverted hook bracket is ideal for holding 2Kg CO2 extinguishers.

5 3508

FIRE EXTINGUISHER LOCATION STAND

This stand suits all types of extinguishers and allows multiple stands to be interlinked together.

It also includes a smooth mounting area for fire extinguisher ID signs (sold separately) for easy identification of the fire extinguisher type.

Supplied in a two part flat pack.

Shatterproof Polypropylene
295W x 270D x 665Hmm
5 8200

FIRE EXTINGUISHER TROLLEY

Double fire extinguisher trolley offers a great solution to creating designated fire points around a site. Includes space to mount your relevant extinguisher ID signage, and brackets to hold two fire extinguishers. Two tough rubber wheels makes manoeuvrability easy with just a single user.

Easy to assemble with click into place design
Arrives flat packed for easy transportation and storage
Removable wheels for disassembly
Holds two extinguishers
Built in board to host signage
Bright, lightweight and easy to spot on site

Weight: 13 kg
Dimensions: H x W x D: 1400 x 630 x 320mm (frame & wheels)

5 3507

SPRINKLER SIGNS

Sprinklers are seen as the only system which detects a fire, suppresses a fire and raises an alarm, making them vitally important as part of a fire safety programme. This range of signs helps identify and highlight the locations of important sprinkler equipment within a building.

FIRE SAFETY POSTER

An eye catching fire safety poster made on wipe-clean synthetic paper.

FOR ADDITIONAL PROTECTION AGAINST WEAR AND TEAR, WE HAVE A RANGE OF POSTER FRAMES AVAILABLE TO VIEW ON PAGE 50.

Synthetic Paper
510 x 760mm
5 9820

FIRE DOOR SIGNS

Every fire door should have a "Fire door Keep shut" sign fitted. When doors can be used from both sides a sign is required on both sides. Doors that open on to a fire escape corridor should be locked shut and signed accordingly. The window stickers are all double sided and designed for use on glass doors. They ensure the message is visible from both directions.

LOG BOOK HOLDER

This wall mountable station ensures that fire log books are clearly visible at all times and is easy to access by fire engineers needing to view service history. The station helps to overcome the log book being misplaced or not close to hand. The station is pre-drilled for easy mounting and includes a printed "missing" message to show if / when the log book has been removed.

FIRE LOG BOOK

Maintaining a fire log book demonstrates that safety responsibilities are being managed. It also provides engineers with dates and times of service history and ensures compliance with BS 5839-1: 2025.

INCLUDES CONTENTS / LOGS FOR:
User responsibilities
Premises details
Fire fighting equipment
Hose reels
Fire alarm testing
Alarm activations
Fire alarm servicing
Fire alarm system certification
Emergency lighting
Fire doors, escape route inspection
Fire instructions and drills

DIRECTIONAL EMERGENCY ESCAPE SIGNS

Emergency escape signs are designed to guide you from wherever you are in a building, via a place of relative safety (the escape route) to the place of ultimate safety (the assembly area). It must not be assumed that everyone will know all safe routes through the building. Emergency escape signs should comply with BS EN ISO 7010:2020 to ensure maximum levels of understanding. The old EC Directive (92/58/EEC) designs should no longer be used due to their low comprehension credentials.

Our range of emergency escape signs available in photoluminescent materials (signs which start with a 3 or 4). The strength and quality of photoluminescent materials can vary greatly, due to this we have introduced the Ultra Bright brand to give assurance that all our photoluminescent signage exceeds PSPA (The Photoluminescent Safety Products Association) Class C ratings, making it one of the best in the UK market and ensuring our signs stay brighter for longer to give the maximum chance for a successful evacuation.

Ensuring that signage is clearly visible in blackout conditions can prove the difference between life and death during an emergency evacuation, helping guide people to exits and to essential equipment in an emergency situation where a mains failure has occurred. Ultra Bright signs will help lead the way to safety even in smoky conditions.

STAIRWAY, FLOOR LEVEL & DWELLING ID SIGNS

To assist the fire and rescue service in identifying each level of a building, storey identification signs identify the level by "Floor Number" and should be located on every landing of a fire-fighting stairway and every fire-fighting lobby (or open access balcony) into which a fire-fighting lift discharges. Storey ID signs should be supplemented by dwelling indicator signs (positioned directly below the Storey ID sign), which provide information as to the dwellings (flats or maisonettes) located on the storey in question.

The Building Regulations 2010:

Approved Document B (Fire Safety) Volume 1: Dwellings (2019 Edition Incorporating 2020 And 2022 Amendments).

Wayfinding Signage for the Fire Service

15.13 To assist the fire service to identify each floor in a block of flats with a top storey more than 11m above ground level (see Diagram D6), floor identification signs and flat indicator signs should be provided.

15.14 Floor identification signs should meet all of the following conditions:

a. The signs should be located on every landing of a protected stairway and every protected corridor / lobby (or open access balcony) into which a firefighting lift opens.
b. The text should be in sans serif typeface with a letter height of at least 50mm. The height of the numeral that designates the floor number should be at least 75mm.
c. The signs should be visible from the top step of a firefighting stair and, where possible, from inside a firefighting lift when the lift car doors open.
d. The signs should be mounted between 1.7m and 2m above floor level and, as far as practicable, all the signs should be mounted at the same height.
e. The text should be on a contrasting background, easily legible and readable in low level lighting conditions or when illuminated with a torch.

15.15 The wording used on each floor identification sign should take the form Floor X, with X designating the number of the storey, as intended for reference by residents.

a. The floor closest to the main ground level should be designated as either Floor 0 or Ground Floor.
b. Each floor above the ground floor should be numbered sequentially beginning with Floor 1.
c. A lower ground floor should be designated as either Floor –1 or Lower Ground Floor.
d. Each floor below the ground floor should be numbered sequentially beginning with Floor –1 or Basement 1.

15.16 All floor identification signs should be supplemented by flat indicator signs, which provide information relating to the flats accessed on each storey.

HOW TO ORDER CUSTOM STAIRWELL SIGNS

During the ordering process, please state the sign code and the required details.

The code for this custom would be:
5 2199 / 4

The code for this custom would be:
5 2202 / 15

The code for this custom would be:
5 2195 / 88 - 97

The code for this custom would be:
5 2188 / 98 - 108

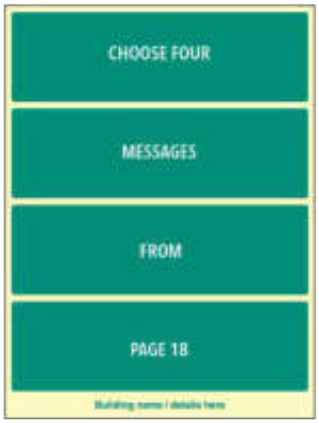

In this example you would order by simply emailing us the following:

5 2207
1. Stairway B
2. Floor 2

MULTI-MESSAGE STAIRWAY, FLOOR LEVEL & DWELLING ID TEMPLATES

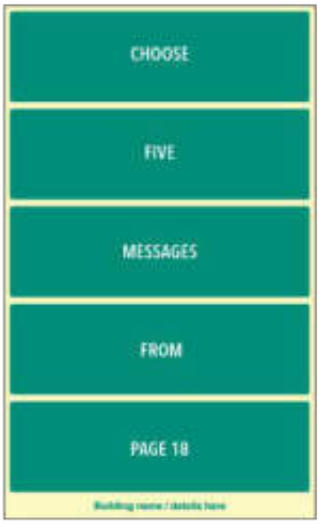

Due to the technical requirements of this range, font styles and sizes must be compliant with the specifications outlined in **The Building Regulations 2010:** *Approved Document B (Fire Safety) Volume 1: Dwellings (2019 Edition Incorporating 2020 And 2022 Amendments)* which may restrict the number of characters and letters achievable on these signs. In order to ensure your signage complies, we may need to increase the dimensions of the sign to include all of the required text - in such a scenario we will advise of the alterations and quote accordingly.

INTERMEDIATE MARKERS

ISO 16069:2017 describes the principles governing the design and marking for Safety Way Guidance Systems. In addition to the requirement for installing exit signs at 1.7m - 2.2 metres from the ground, this standard recommends that additional intermediate and low location markings may also be required. Position at a maximum height of 400mm from the floor for low level marking. Subject to a full risk assessment, additional escape guidance should be provided through the use of both continuous guidance lines and safety signs to ensure there is an uninterrupted safety sign system to aid an efficient and safe evacuation from a building. Fire fighting equipment, hazards along an escape route, boundaries, stairs and ramps should also be identified.

ASSEMBLY POINT SIGNS

It must not be assumed that, once outside a building, people will know how to get to an assembly area. Signs directing to the assembly area may be required.

EVACUATION PROCEDURES: CHOOSING AN ASSEMBLY POINT.

Fire assembly points should be far enough away from the building to avoid interference with the fire brigade and danger from falling debris caused by the fire. Providing clear and visible signage will help ensure all evacuees know where to gather in the event of a fire or fire drill. They must be easily accessible and have an unobstructed pathway leading to them. Larger sites may require multiple assembly points that can be identified with allocated numbers/letters.

DESIGNATED SMOKING AREA SIGNS

Whilst we actively endorse and, wherever possible, adhere to relevant Standards, we feel in this instance signs permitting smoking should under no circumstance be deemed as "safe" (Under BS EN ISO 7010 and BS 5499 signs relating to Designated Smoking Areas are deemed as "Safe Condition" signs. Safe Condition signs would normally use white text on a green background, alongside a tick or appropriate symbol). In acknowledgement of the damaging effects of smoking, please note our range of signs utilise the colour black to clearly differentiate these signs from Safe Condition signs.

FREE STANDING CIGARETTE BIN

Freestanding floor mounted cigarette bin with sloping top to prevent unwanted collection of stubs or rubbish. Made of galvanized steel, with a tough black powder coat finish.

Locking door opens for easy disposal of ash from inside the ash collection box. Lock and keys included. Weatherproof design makes it suitable for both internal and external use.

Galvanized Steel
1000 x 200 x 200mm

HARMFUL SUBSTANCES

Displayed to advise and forewarn of potential dangers. These signs should include a yellow triangle with black border containing a warning symbol conforming to ISO 7010.
The signs' supplementary text should always include one of three words:- **Danger** - High level risk that could result in death or serious injury. This keyword should be limited to the most extreme hazard cases. **Warning** - Medium level risk that could result in minor or moderate injury. **Caution** - Low level risk that could lead to minor injury.

ARC FLASH

An arc flash is a release of energy that includes brilliant light, dangerous sound levels and sometimes a blast pressure wave. Isolating the supply of electricity and using appropriate PPE are popular methods for reducing the risk of an arc flash, as is the use of appropriate signage to highlight the inherent dangers.

PAT TESTING

Portable Appliance Testing is the name of a process in which electrical appliances are routinely checked for safety. The formal term for the process is in-service inspection and testing of electrical equipment. PAT Test labels should comply with IEE regulations, ensuring all required information is on the label.

CABLE WRAP LABELS

A roll of 100 cable wrap labels manufactured from a matt non-rip material that can be written on with a standard pen. The label wraps around the cable to identify if the appliance has passed or failed PAT.

CUSTOM FREE-STANDING SIGNS

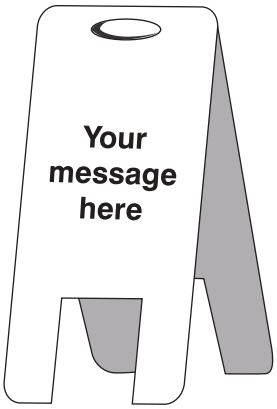

These popular double sided, free-standing signs can be customised and personalised to show the warning message you require. They can also be used to promote brand awareness while you work – add your company name and contact details to ensure potential customers know who to contact if they want similar work completed.

To customise these signs in any way simply quote the relevant code and supply the wording/message or image that you require when ordering.

CHOOSE YOUR DESIGN AND INCLUDE UP TO TEN WORDS ON BOTH SIDES.

DOUBLE SIDED CONES

Height: 480mm Width: 330mm Weight:3.8KG

Manufactured from LDPE, with the base manufactured from 100% recycled PVC. The stackable design ensures convenient storage between uses and facilitates easy transportation. Enhanced stability on pavements and road surfaces is guaranteed with the anti-slip base. These double-sided cones are versatile and meet all UK and international safety requirements.

5 8226

5 8227

CIRCULAR CONES

500mm high round PVC cones are pre-printed to mark hazardous areas, or we can print a message of your choice.

These warning cones provide essential safety by alerting people to hazardous floor conditions, helping prevent slips, trips and falls in areas affected by spills, cleaning, or wet weather.

The bright yellow colour ensures maximum visibility and its lightweight design makes it easy to deploy.

For custom messages please specify your required text and quote the code **5** 7995.

CONE ATTACHMENTS

This lightweight ring fits onto round cones; complete with hooks for plastic chain attachment. Use to create a simple barrier solution.

5 7998

Lightweight polyethylene chain with 6mm links. Supplied in 10 metre lengths.

Red & White **5** 9041
Black & Yellow **5** 9042

FOR MORE CHAIN POSTS AND BARRIER SYSTEMS SEE PAGES 68 - 69

ELEVATOR GUARD

Designed specifically for elevator maintenance and to comply with BS EN 7255:2001.

Complete modular, 2-panel units that can link together to form larger units. Fold away barrier system made from durable polyethylene plastic. Non-conductive, telescopic poles stored inside the barriers to connect to elevator opening. Lightweight yet extremely strong.

- Suitable for 1300mm openings
- No admittance authorised personnel only
- Each panel 1100 x 660 x 40mm (H x W x D)
- Weight: approx 4kg
- Telescopic poles extend to 2.2m

Polyethylene Panels x 2
1100 x 660 x 40mm
5 9638

HANDI GUARDS

High quality modular, 3-panel barrier system with a yellow and black stripe and caution symbol as standard. A smooth finish allows easy maintenance and cleaning. Snap on hinges supplied with every panel or set to link panels together.

- Dimensions: 800 x 1000 x 30mm (H x W x D)
- Foldaway for easy storage
- Lightweight – panel weight 2.5kg
- Made from durable polyethylene
- Designed to comply with BS7801:2011 safe working on escalators and moving walkways

Polyethylene
800 x 1000 x 30mm
Panels x 3

PERSONAL PROTECTIVE EQUIPMENT (PPE) SIGNS

PPE must be properly looked after and stored when not in use. Staff must make proper use of PPE and report if it has been lost, damaged or if a fault is found. Signs and posters can prove a useful reminder that PPE should be worn during specific tasks or in specific locations. Take note of any changes in equipment, materials or methods – you may need to update your signs accordingly.

FIRST AID SIGNS

Under the Health and Safety (First Aid) Regulations 1981 (as amended 1997) employers have a legal obligation to assess and introduce first aid provisions. Any such provisions should be easy to locate and displaying ISO 7010 compliant signage offers the perfect solution.

FIRST AID BOX TAMPER LABELS

An easy-break label to clearly identify when a first aid box has been opened. Helps ensure first aid box remains fully stocked.

82 x 23mm - Roll of 50
5 6300

FIRST AID BOX TAMPER TAG

Tamper proof tags can be attached to first aid kits or fire extinguishers, quickly and easily to ensure that the contents inside are kept safe and deters misuse but it also offers easy access in case of an emergency. Once broken, the tag cannot be re-closed which helps to identify any case of unauthorised use. The bright yellow design ensures it is easily seen.

300mm Length
5 1100

REFLECTIVE FIRST AID ARMBAND

Identify first aid personnel quickly with this reflective first aid armband. Hook and loop fastening. One size fits all. Adjustable to fit: 90 - 130mm diameter.

5 6469

WALL HANGING HOOK

Manufactured from a strong black polypropylene plastic. Suitable for holding most first aid kits by the handle. The hook includes two drill holes for easy fixing (screws not included). Helps to make first aid kits easily visible and accessible in the workplace.

55 x 60 x 80mm
5 5933

ACCIDENT REPORT BOOK

50 individual records, all on perforated paper to enable confidentiality.

In line with the Data Protection Act 2018 and GDPR, this A4 book enables the record of an accident/ incident relating to any individual to be easily removed from the main book and stored securely in an employee's private records.

5 6095

ACCIDENT REPORT BOOK STATION

This wall mounted station ensures that the accident book is clearly visible at all times and is easy to access in case of an emergency. The station helps to overcome the frequent issue of Accident Books being misplaced or not close to hand following an accident and therefore a record not being completed.

The station is pre-drilled for easy mounting and includes a printed "missing" message to show if / when the log book has been removed.

Please order the book separately

FRAMES

Choose from a selection of frame display solutions for important poster messages or documents.
All variants on this page allow easy interchange and updating of contents to keep messages fresh and relevant at all times.

MAGNETIC DOCUMENT FRAMES

A quick and easy solution for displaying key information in the workplace. These magnetic document frames are available for both A4 (210 x 297mm) and A3 (297 x 420mm) sheets of paper. The frames are available in various coloured borders making them perfect for use in the workplace to display all types of literature, certificates and information.

The strong magnetic border allows them to be applied to metal filing cabinets, racking, magnetic whiteboards or any other flat steel surface.

Insert a sheet of A4 or A3 paper within the frame to display content. Content can be easily updated as / when required by simply lifting the magnetic strip, this also makes it simple to relocate the frame whenever necessary. Ideal for use in 5S or 6S lean manufacturing displays where colour coded frames may prove beneficial.

The choice of common "safety colour" borders means that the frame can also be coordinated with key safety messages (mandatory, prohibition, warning and safe condition).

SIZE / COLOUR	A4 Frame: 240 x 327mm Paper: 210 x 297mm	A3 Frame: 327 x 450mm Paper: 297 x 420mm

HANGING SNAP FRAME

Suspending posters from your ceiling is a great way to maximise your advertising space. Ideal for exhibitions, spas, hotels, restaurants or showrooms. The aluminium snap frame rails include a rubber insert so the poster is securely gripped as it hangs.

- 2 x Slide Hangers and 4 x End Caps
- 2 x 420mm Aluminium Rails
- Landscape and Portrait
- Holds signs up to 1mm thick
- Hang from ceiling with Suspension Kit (sold separately - see page 140)

5 8931

LOCKABLE FRAME

A high specification frame which is ideal for both indoor and outdoor environments. Featuring a strong extruded aluminium frame, tough plastic poster cover and a water seal to protect Inside. These frames are finished in silver anodised aluminium which is highly weather resistant.

- 45mm Frame
- Extruded Aluminium
- 2mm Plastic Glazing
- Waterproof Seal

A4 (210 x 297mm)	A3 (297 x 420mm)	A2 (420 x 594mm)	A1 (594 x 840mm)
5 3455	**5** 3456	**5** 3457	**5** 3458

SNAP FRAME A-BOARDS

These double sided aluminium A-Frame boards are ideal for quick marketing and promotion changes. The snap frame action allows graphics to be changed quickly and efficiently, whilst an anti-glare PVC film protects poster graphics from the elements.

Rubber feet provide a non-slip grip
Easy to fold up for storage.

If you require posters to be printed please don't hesitate to contact us for a quote.

A1 SNAP FRAME A-BOARD
Displays two A1 posters (594 x 840mm)
Weight: 6.5kg
Dimensions when collapsed:
1040 x 640 x 100mm (H x W x D)
5 9038

A2 SNAP FRAME A-BOARD
Displays two A2 posters (420 x 594mm)
Weight: 4.9kg
Dimensions when collapsed:
910 x 465 x 100mm (H x W x D)

HEALTH AND SAFETY LAW POSTER

The HSE Health and Safety Law Poster includes enhanced security features. The features include an image flip hologram with surface relief, optical variable ink, embossed roundel, rounded corners and is printed on recyclable polypropylene material.

Easy to read and understand, providing benefits from increased awareness to both workers and employers.

Unlike the previous poster, there is no need to provide the name and address of the enforcing authority for the premises. Reduces the costs for employers, who no longer need to include and update additional information.

PERSONALISED VISUAL SIGNAGE TO SUPPORT RECOGNITION AND REDUCE CONFUSION

Adapt-A-Sign frames offer a cost-effective and professional signage solution specifically designed to support people living with dementia. Ideal for care homes and assisted living facilities, these frames provide a more meaningful and personalised alternative to standard signage.

WHY CHOOSE ADAPT-A-SIGN?
Traditional signs–such as a generic "bedroom" label–may not be easily understood by residents with dementia. With Adapt-A-Sign, you can insert personalised images which help create a sense of familiarity. Images of the actual room, items, furniture or even the residents themselves can help make it easier for individuals to recognise and navigate their environment confidently and independently.

PRODUCT FEATURES
Dementia-friendly design to aid recognition and reduce confusion.
Easy to customise – just print your image or message and slide it into the frame.
Change images as needed – ideal for room changes or new residents.
Durable construction – made from robust 3mm PVC with a protective clear cover.
Available in a choice of border colours to suit your environment.
Fits standard A4 sheets and can be mounted in portrait or landscape orientation.

Dementia Friendly Product

LOOKING FOR READY-MADE OPTIONS? PRE-PRINTED ADAPT-A-SIGNS ARE ALSO AVAILABLE – SEE PAGE 86 OF OUR CATALOGUE FOR DETAILS.

MULTI-MESSAGE DESIGN RULES

Multi-message signs can be used to display several safety messages on one sign, consolidating important information into a single focal point and removing the risk of sign clutter. Different safety sign categories can be placed together vertically or horizontally on the same sign. The sign should never combine two categories into one message. Multi-message signs should follow the design principles of BS EN ISO 7010:2020 to ensure maximum levels of message comprehension.

LOADING BAY SIGNS

Our range of loading bay signs help provide clear messages to site users, helping them avoid hazards and stay safe in areas where heavy vehicles and equipment are regularly under operation. With signs targeting both pedestrians and drivers of vehicles, you can be assured that everyone is aware of the required safety conditions that must be maintained at all times. Large format signs allow enhanced visibility from a distance for drivers.

WIPE CLEAN SIGNS

We have developed a range of rigid pvc signs with a specialist dry-wipe surface which allows the sign to be updated with a water based dry-wipe pen. This range allows managers to highlight key performance information and messages as and when required. Simply wipe clean and re-use time after time.

Wipe clean signs, also known as dry-wipe signs, offer a reusable and cost-effective solution for displaying frequently changing information. They are easy to update, making them ideal for schedules or daily messages in settings like offices and warehouse spaces. Their reusability not only reduces ongoing printing costs but also supports environmentally friendly practices by minimising paper waste.

AISLE MARKERS

Please specify required text when ordering.

These end-of-aisle markers are available in various sizes and help to locate specific products and aisles quickly and easily across large areas. Suitable for use in factory, warehouse, or office environments. Manufactured from lightweight but durable, white aluminium composite with surface printing (please specify your required text when ordering). Supplied pre-drilled for cable tie or screw fixing (fixings are not included). Can be used in conjunction with bay markers, (as found on page 57) to ensure personnel are efficiently directed to the correct location.

IMPACT PROTECTION

The impact protection system cushions and warns of protruding corners, edges, vulnerable pipes and protects many other areas such as walls, kerbs, trolley parks, vehicles, plant and machinery and is ideal for racking and shelving. This range of impact protection provides essential safety and cost-saving benefits in industrial and high-traffic environments by preventing injuries, safeguarding equipment and infrastructure, and reducing repair costs from collisions. Supplied in standard lengths of 1000mm and manufactured from high-grade flexible age resistant polyurethane foam with self adhesive or push on profiles. They can be easily installed and cut to the required length.

Full Dome	660mm	8 metres	4 way 360˚	**5** 9241

CONVEX MIRRORS

A range of light and virtually unbreakable convex mirrors supplied with a three year guarantee. Includes fixings.

Convex mirrors are supplied complete with fully adjustable bolts & bracket kit for either wall mounting or for posts (60 - 90mm diameter).

The kit is robust and tested to withstand winds of up to 183 km/h. Easy to install, allows precise adjustment for optimal positioning.

MULTI-PURPOSE Internal / External Use

Ideal for use in warehouses, high-risk collision areas, stock surveillance, work station safety and direct observation of hidden parts of machinery.

NEAR MISS REPORTING

The HSE defines a near miss as 'an event not causing harm, but one that has the potential to cause injury or ill health'. This can include dangerous occurrences that are reportable, as defined in the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR).

NEAR MISS RECORD BOOK

This Near Miss Record Book contains clear guidance on what a Near Miss Incident is, the employers and employee's responsibility and guidance on completing a record.

Near miss records are used to inform management of incidents, to help ensure that serious injuries and accidents do not occur in the future.

The perforated top allows forms to be easily removed from the book for safe storage / management records.

A4 Book
53 Incident Forms
5 5937

NEAR MISS RECORD BOOK STATION

A near miss record book is an ideal way to keep track of incidents that had the potential to result in injury, allowing you to improve your health and safety measures and policies in the future. Ensure your employees make good use of the record book by wall-mounting it with this useful station (pre-drilled for easy mounting). A printed "missing" message is displayed on the station and will show when the book has been removed.
(Books ordered separately).

EQUIPMENT INSPECTIONS

Good to Go Safety is a multi-award winning system which enables companies to complete safety inspections on workplace equipment.

The system is perfect for ensuring warehouse equipment such as forklifts, ladders and pallet racking are in safe working order prior to use.

Simply attach a status tag to the equipment, use the corresponding check book to carry out an inspection, insert the completed checklist inside the tag. A duplicate carbon copy is created for your management records, providing invaluable evidence of a Safe Equipment Management System (SEMS) in the event of an accident.

For more information see pages 135-138.

FLOOR GRAPHICS

Our popular interal floor graphis are sub-surface printed with a hard wearing, anti-slip polycarbonate film. Use primer, edge sealer and floor cleaner for improved adhesion.

Our external grade floor graphic material is slip resistant and suitable for use on asphalt, concrete, stairs, stone, metal, and other walking and driving surfaces. It is highly conformable to a variety of surfaces making it popular for outdoor advertising, point-of-purchase, events, wayfinding, safety messages, parking lots, and much more. An aluminium foil based material is backed with a high-performance, pressure sensitive, non-corrosive adhesive and paper liner for easy application and has an excellent R12 slip rating.

It is easy to install the finished graphics on stairs, roadways, driveways, floors, walls, walkways, and other non-treated surfaces. These visually striking graphics can withstand heavy pedestrian and light vehicle traffic for up to a full year when installed as directed (or considerably longer in low traffic areas/indoors).

ANTI-SLIP MATS 610 x 150mm

Anti-slip mats provide a practical and effective solution for preventing slips, trips, and falls in both commercial and industrial settings. Designed with high-traction surfaces, these mats improve footing in areas prone to moisture, oil, or debris–such as entryways, kitchens, warehouses, and workstations. These anti-slip mats have an aggressive pressure sensitive adhesive for bonding to most floor surfaces. They are durable, easy to clean and are a cost-effective investment in both safety and employee well-being.

REFLECTIVE TAPES Self Adhesive - 50mm x 33m

These highly visibility, retro-reflective marking tapes are resistant to corrosion, weathering and most solvents. They will shine brightly in the dark when light is directed at it creating a highly effective way to enhance visibility and safety in low-light or high-risk environments.

5 8643

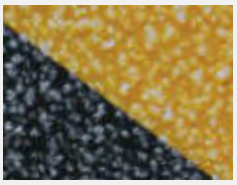

5 8646

ANTI-SLIP FLOOR GRAPHICS ARE AN IDEAL SOLUTION FOR SURFACES THAT ARE PRONE TO BECOMING SLIPPERY - AREAS SUCH AS ENTRANCES OR STEPS.

FOR LONG LASTING ADHESION OF OUR FLOOR GRAPHICS & TAPES SEE PAGE 64 FOR FLOOR PREPARATION PRODUCTS.

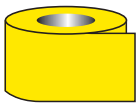

FLOOR SAFETY TAPES Self Adhesive - 50mm x 33m

Heavy duty plasticised PVC tape with an aggressive pressure sensitive adhesive backing. Quick and easy to put down and provides smooth, straight lines which are highly visible. This tape provides instant demarcation lines for gangways and restricted areas. Perfect for use in sports halls, warehouses, hospitals etc.

STENCILS

Laser cut clear PET (polyethylene) stencils – 100% recyclable, high chemical resistance – allowing them to be re-used after numerous paint applications. Hard wearing with high impact strength.

Bespoke designs can be created (max size 600 x 900mm) contact us with details for a quote. Ideal for repeating key safety messages throughout car parks and warehouses by simply painting over the stencil at required locations.

FLOOR GRAPHIC FRAMES

400 x 310mm coloured frame - Clear A4 (297 x 210mm) window.

Tough permanent adhesive colour edged PVC frames that enable a printed message or barcode to be placed and protected onto the floor.

Manufactured using thin plastic membrane, the frame bonds on the floor surface and are resistant to the rigours of a busy warehouse. Ideal for identifying stock locations or to highlight important information.

Displays an A4 message (not included), simply print off your own message and place in the window. Alternative frame colours available on request.

400 x 310mm

HAND HELD APPLICATOR

This hand applicator has been specially designed for comfortable use. Ideal for use with stencil sets. Makes marking steps or obstructions easy.

5 9604

LINE MARKING KIT

Contains everything you need to mark out warehouses, factories or car parks.

The four wheel paint applicator produces a 50 - 75mm wide line marking of roughly 25 metres per minute.

The long lasting synthetic resin spray paint produces highly visible, chemical resistant marking that adheres to most surfaces such as concrete, asphalt, metal and more.

If you'd prefer the kit with an alternative colour please advise.

5 9601

CONTENTS
2 x 750ml Cans of Yellow Paint
1 x 4 Wheel Paint Applicator
1 x Chalk Line
1 x Chalk Refill

SPRAY PAINTS

Long lasting, durable synthetic resin paint. Easy to use, simply shake the can and apply. Produces markings that are highly visible and are abrasion and chemical resistant. Adheres to most surfaces.

Economical - one 750ml can produces a 50mm wide line approximately 50-90 metres long (dependent on surface). Environmentally friendly. Conforms to latest EU regulations.

5 9607 **5** 9605 **5** 9606

RETRACTABLE BARRIER POSTS

Use these stylish retractable barrier posts to manage crowds in shops, hotels or anywhere needing an orderly queuing system. Each 1015mm high post comes complete with 3.4m of retractable 50mm wide webbing stored in the head. Simply pull out and attach to additional posts or wall brackets. Includes a belt lock and slow retract braking system for safety purposes. Available in both polished or black powder coated stainless steel.

1015mm high post with 355mm diameter base providing excellent ballast of 9kg. Other standard webbing and post colours along with printed safety message belts are available upon request.

CUSTOM WEBBING

For custom webbing options please contact us for a quote and specify your message of choice and the colours you wish to use.

INDUSTRIAL RETRACTABLE BARRIER POSTS

Designed for outdoor use, these retractable posts feature a heavy duty, non-rusting recycled rubber base (480mm dia) and a powder coated stainless steel post (1015mm high) complete with 3.4m of safety chevron webbing (50mm wide) stored in the head. Simply pull out and attach to additional posts or wall brackets. Includes a belt lock and slow retract braking system for safety purposes. Rubber base includes carry handles and post can be removed for ease of handling/storage. Webbing can be supplied with safety messages – please ask for a quote.

CHAIN POSTS

Plastic posts and chains offer a lightweight, flexible option for cordoning off areas quickly and easily, making them perfect for temporary hazards such as spillages or for preventing access to areas during cleaning or hazardous work activities. The posts and bases are easily detached for ease of storage.

UNIVERSAL CHAIN POST & BASE

An ideal, low cost solution for cordoning off areas both internally and temporarily in outdoor environments. Quickly and easily deployed.

Use with plastic chains and chain links below (sold separately).

We recommend a maximum of two metres of plastic chain between posts.

- Corrosion proof plastic construction
- Four chain eyes in cap allows easy directional changes
- Highly visible post colours

HEAVY DUTY CHAIN POST & BASE

A highly stable and extremely effective heavy duty chain post system consisting of a reflective, polypropylene post and recycled PVC base. Suitable for both internal and external use for either temporary or permanent applications.

100mm diameter post includes a retro-reflective red and white finish, providing excellent visibility when light is shone at it. The chain eye on top of the post rotates, guiding the chain to any angle required. Simply thread the chain through the eye and secure to the end posts with a connector link (sold separately). The post twists and locks into the base and easily dismantles for storage.

We recommend a maximum of 2.5 metres of plastic chain between posts.

Base
Recycled PVC base with carry handles
Dimensions: 7cm high, 57cm diameter
Weight: 8.5kg

Post
Moulded polypropylene with reflective finish and rotating chain eye
Dimensions: 1metre height with 10cm diameter
Weight: 2.7kg

SHADOW BOARD EQUIPMENT

Our standard range of shadow boards found on page 71 are supplied complete with hanging and cleaning equipment but you can also order additional or replacement equipment as and when required. Our standard range is always supplied in blue but if you need any of the equipment in an alternative colour then let us know and we will be happy to quote accordingly (minimum order quantities might be required).

HANGING EQUIPMENT

Choose from our range of hooks, hangers and rails to create your own storage areas. Use the channelled hanging rail (55955) to slide the hooks and hangers in to position for displaying multiple pieces of equipment.

CHANNELLED HANGING RAIL
Aluminium with Blue End Cap
515 x 55mm (Hooks not included)

There are many important benefits by using a shadow board system such as:

1. Systematic storage in an organised manner.
2. Improved productivity due to the ease of locating tools.
3. Accountability - areas are responsible for their own tools, missing items are quickly identified.
4. Space utilisation is improved by keeping everything stored neatly in one easy to reach location.

6S SAFETY SIGNS

6S is a system for organising spaces so work can be performed efficiently, effectively and safely. This system focuses on putting everything where it belongs and keeping the workplace clean and tidy, which makes it easier for people to do their jobs without wasting time or risking injury.

A neat and tidy workplace will see higher productivity; produce fewer errors/defects; meet deadlines better; be a safer place to work; identify problems earlier; promote stronger communication levels; reduce waste and lower costs. Our range of signs and posters help to promote the importance of 6S.

SPILL KIT STATION SIGNS

Regulation 13 of the Control Of Substances Hazardous to Health Regulations 2002 places a duty on employers to provide for appropriate emergency response including immediate remedial action. EN ISO 14001 requires organisations to "establish and maintain procedures to identify potential for and respond to accidents and emergency situations, and for preventing and mitigating the environmental impact that may be associated with them" (Clause 4.4.7). Our range of signs inform how to effectively respond to any oil, chemical or general fluid spill on site, inline with EU guidelines and legislation to assist with ISO 14001 compliance.

RECYCLING SIGNS

An extensive range of recycling signage to ensure your workplace identifies bins and areas dedicated to your recycling programme. Waste & Resources Action Programme compliant.

The aim of the WRAP programme is to help businesses, local authorities, community groups and individuals recycle and reuse more, and to reduce food waste.
If you can't find the sign you need for your businesses' recycling programme let us know and we will be happy to quote for custom designs.

WE CAN MANUFACTURE ALL OUR SIGNS ON RECYCLABLE MATERIALS SUCH AS PET, FLUTED POLYPROPYLENE, OR ALUMINIUM TO HELP BUSINESSES COMPLY WITH NEW STANDARDS, REDUCE WASTAGE, AND MANAGE WASTE EFFECTIVELY.

A pack of four double sided adhesive foam tabs. Suitable for indoor use.

5 8724

ENVIRONMENTAL

Reducing water, energy and food wastage is critical to the protection of the environment. Help remind viewers of environmental policies and to promote a positive image. Environmental conservation is not just a responsibility but a necessity for the well-being of our planet, wildlife, and future generations.

We can manufacture all our signs on recyclable materials such as PET, fluted polypropylene, or aluminium to help businesses comply with new standards, and manage waste effectively.

PRIVATE LAND AND FARMING SIGNS

Did you know that farming is statistically the most dangerous industry in the UK? Using the right farm safety signs is necessary to meet legal requirements and protect the landowner from liability if someone is injured on their property, so it's vital to properly display farm signs where required.

FARM MACHINERY INSPECTIONS

The most common causes of serious and fatal injuries in agriculture involve farm vehicles and machinery. To comply with legislation, you should carry out daily checks to make sure the machinery you are about to use, or allow someone else to use, is safe and working correctly. Keeping a record of when an inspection has been carried out is important, they can help show that a tractor is well maintained and regularly checked, proving invaluable in the event of an HSE inspection following an accident. See page 135 - 138 for more information.

CCTV SAFETY SIGNS

If your business uses CCTV, you must inform people that they could be recorded. This is done by displaying signs, which must be clearly visible and readable. In order to comply with Data Protection Act 2018 and GDPR (General Data Protection Regulation), signs must state the purpose of the scheme, and give details of the GDPR controller (either the person's name, position, or preferably the company's name) together with a contact telephone number or address.

FOOD LABELS

Rolls of 100 - 75 x 50mm - Food Safe Removable Polypropylene

A food labelling system can be used as part of your HACCP (Hazard Analysis Critical Control Points) Plan and will enable you to show the Health Inspector that your kitchen is safe. When correctly used food labelling can ensure that the food is in date, fresh, there is no cross contamination, and that allergens are correctly identified. Manufactured from a food-safe, removable polypropylene material with a matt finish for easy writing onto. The labels can be peeled away from plastic containers etc as and when required.

SHELF LIFE LABELS

These days of the week labels are good for ensuring that the First in First out (FIFO) procedure is done efficiently and can help reduce food waste.

ADAPT-A-SIGNS

3mm PVC, with a hard wearing Clear PVC cover - 215 x 310mm.

A cost effective sign solution, allowing you to adapt the sign to manage any changes in personnel or company details. Helps ensure your signs remain up to date at all times. Developed to hold a standard A4 sheet of paper, which you can simply print off with your relevant contact details and insert into the sign frame.

WE CAN PROVIDE THESE IN ANY DESIGN, COLOUR OR SIZE. SIMPLY CONTACT US AND WE WILL PROVIDE YOU WITH A QUOTE.

THE BENEFITS

Scoring out a name and scrawling a new one above, is unprofessional and unsightly, yet buying a new sign each time there are personnel changes is wasteful.

Type up personnel details on template and Print out on a4 page

Insert the A4 printout into adapt-a-sign

Repeat steps and replace when details change

BLANK ADAPT-A-SIGN FRAMES

Use blank frames to display your own messages. Perfect for displaying fire escape route plans, information messages or an ideal solution for use in care homes or for anyone living with dementia. Adapt-A-Sign frames offer a cost-effective and professional signage solution to support people living with dementia. Using these frames can help reduce confusion whilst providing a more meaningful and personalised alternative to standard signage.

WHY CHOOSE ADAPT-A-SIGN?

Traditional signs–such as a generic "bedroom" label–may not be easily understood by residents with dementia. With Adapt-A-Sign, you can insert personalised images which help create a sense of familiarity. Images of the actual room, items, furniture or even the residents themselves can help make it easier for individuals to recognise and navigate their environment confidently and independently.

PRODUCT FEATURES

- Dementia-friendly design to aid recognition and reduce confusion.
- Easy to customise – just print your image or message and slide it into the frame.
- Change images as needed – ideal for room changes or new residents.
- Durable construction – made from robust 3mm PVC with a protective clear cover.
- Available in a choice of border colours to suit the environment, branding or person.
- Fits standard A4 sheets and can be mounted in portrait or landscape orientation.

Dementia Friendly Product

BESPOKE BRAILLE & TACTILE SIGNS CONTACT US FOR A QUOTE

We are passionate about creating environments that are welcoming and accessible to everyone, in line with the Equality Act 2010. That's why we're proud to have the ability to create bespoke braille signs, designed to enhance navigation and communication for those who rely on tactile reading. Whether you're looking to label rooms, provide directional signage, or showcase important information, our custom braille signs ensure that every message is conveyed clearly and effectively to all individuals.

ACCESSIBILITY AND INCLUSIVITY

A successful sign system should minimise anxiety and confusion. It should be easy to understand and people with sight loss should not be placed at a disadvantage.

Signs should be clear, concise, and consistent. Our accessible signage consists of raised large print, pictograms and symbols and raised braille dots which means they can be seen and read by everyone.

ISO 7010 PICTOGRAMS FOR COMPLIANCE AND SAFETY

All our braille signs are manufactured to regulatory standards and compliance requirements. With clear, tactile signage, you can promote a culture of inclusivity and compliance within your organisation.

UNMATCHED DURABILITY

Our engraved / embossed / braille options are designed and manufactured from durable materials and engraved with the highest attention to detail. Our braille dots are sub surface inserted which means there is no risk of them becoming detached which could cause confusion to the reader.

PERSONALISED SOLUTIONS

In 2011, Unified English Braille (UEB) was adopted in the UK replacing Standard English Braille (SEB). All braille used on our signage conforms to UEB standards. We follow the guidelines in the 'Sign Design Guide, a guide to inclusive signage' and 'BS ISO 17049:2013 Accessible design – Application of braille on signage, equipment and appliances'.

ECO-FRIENDLY SIGNS

Our two main materials which are both 100% recyclable have considerable variations in attributes. PET is ultra durable, impact, fire and vandal resistant making them perfect for harsh environments but with a high quality finish. Fluted polypropylene is strong and lightweight making them perfect for temporary installations.

4MM FLUTED POLYPROPYLENE

100% Recyclable within waste group (PP5)
Fluted twin wall polypropylene sheet
Perfect for short term / temporary signage
Durable, Lightweight and Waterproof
Highly cost-effective material

2MM PET

100% Recyclable within waste group (PET1)
Resistant to sub zero temperatures down to -20C
Sub surface printed makes it vandal resistant
Fire resistant (difficult to ignite) to EN13501-1 B – s1, d0
Chemical resistance against agents, oils and solvents

CUSTOM ECO-SIGNS

CAN'T SEE THE SIGN YOU REQUIRED?

DON'T WORRY YOU CAN ORDER ANY OF OUR STANDARD SIGNS OR A CUSTOM DESIGN ON FLUTED POLYPROPYLENE, PET OR ANY OTHER ECO-FRIENDLY MATERIAL. SIMPLY GO TO PAGE 139 FOR MORE INFORMATION.

ECO-FRIENDLY SIGNS

To help encourage an environmentally friendly approach to signage we now include the appropriate recycling logo on the sign to help identify when one of our signs can be recycled and to help recycling centres correctly identify and process the materials efficiently without the need to send them into landfill.

STAIRWAY, FLOOR LEVEL & DWELLING ID SIGNS Ultra Bright

To assist the fire and rescue service in identifying each level of a building, storey identification signs indicate the level by "Floor Number" and should be located on every landing of a fire-fighting stairway and every fire-fighting lobby (or open access balcony) into which a fire-fighting lift discharges. Storey ID signs should be supplemented by dwelling indicator signs (positioned directly below the Storey ID sign), which provide information as to the dwellings (flats or maisonettes) located on the storey in question. For more options in this range see pages 18 - 19.

INCLUSIVE EMERGENCY ESCAPE DESIGN Ultra Bright

Although not currently ISO 7010 registered this design encorporates both a running man and man using a wheelchair to illustrate an inclusive emergency escape message. Both characters are moving in unison to escape; They display the same urgency and appear to be travelling at the same speed. *Registered designs reproduced under license ©®.

DIRECTIONAL EMERGENCY ESCAPE SIGNS Ultra Bright

Emergency escape signs are provided to guide you from wherever you are in a building, via a place of relative safety (the escape route) to the place of ultimate safety (the assembly area). It must not be assumed that everyone will know all safe routes through the building. Emergency escape signs should comply with BS EN ISO 7010:2020 to ensure maximum levels of understanding. The old EC Directive (92/58/EEC) designs should no longer be used due to their low comprehension credentials.

INTERMEDIATE EMERGENCY ESCAPE MARKERS Ultra Bright

In addition to the requirement for installing exit signs at 1.7m - 2.2 metres from the ground, ISO 16069:2017 recommends that additional intermediate markings positioned at a maximum height of 400mm from the floor may also be required. Subject to a full risk assessment, additional escape guidance should be provided through the use of both continuous guidance lines and safety signs to ensure there is an uninterrupted safety sign system to aid safe evacuation from a building.

FIRE SAFETY SIGNS Ultra Bright

The Regulatory Reform (Fire Safety) Order 2005 places responsibility of fire safety on employers to ensure that a fire risk assessment has been conducted to establish fire risks and that appropriate actions are taken to reduce them. Failure to comply could lead to severe legal penalties. Under the Regulatory Reform (Fire Safety) Order 2005, any non-automatic fire fighting equipment should be positioned and signed in accordance with BS EN ISO 7010:2020 to ensure maximum levels of comprehension. By positioning an appropriate fire equipment sign at a height between 1.7m - 2m from the floor it helps to locate and identify essential fire equipment in the event of it being obscured by furnishings in the room.

IMO SIGNS

Standardised safety signs used on ships, offshore platforms, and other marine vessels. They are governed by the International Maritime Organisation (IMO).

These signs use internationally recognised symbols and colours to communicate critical information instantly, regardless of language barriers. We are able to manufacture and supply IMO specific signage upon request, just let us know what you require and we will be happy to quote. All of our photoluminescent signage exceeds the performance requirements of IMO in terms of afterglow properties.

Ultra Bright

Exceeds Class C Photoluminescent PSPA rating. Compliant with ISO 16069:2017 (SWGS). Ultra Bright has been tested in accordance with DIN 67510 Pt1 and stays brighter for longer.

EASIFIX FIRE ACTION KITS

Photoluminescent Self Adhesive Vinyl Main Sign: 150 x 330mm Pop-out: 100 x 100mm

These Fire Action EasiFIX Kits provide you with two signs in one. The design enables you to pop out the fire alarm symbol from the main sign then simply slip the main fire action sign around a call point. The "popped out" call point symbol should be placed on the wall above alarm at a height of between 1.7 and 2 metres from the floor.

VISUAL IMPACT SIGNS

Standoff screws allow visual impact signs to sit slightly away (20mm) from the wall for a professional and eye-catching look. Ideal for use in commercial premises (hotels, retail, offices, etc) on doors or walls, these signs are designed for use in a wide range of environments.

These high-quality signs are quick and easy to install. They are supplied complete with satin anodised standoff mount fixings. Simply use the pre-drilled holes in the sign to mark where the standoffs will go. Screw the stand off locator bases into your wall or door using the screws provided. Then slide the sign onto the standoffs and tighten the caps.

ENGRAVED

Our range of engraved products are supplied on a 2-ply 1.5mm rigid PVC laminate. This material is heat-resistant and robust to withstand the toughest of environments, making them a cost effective and practical solution for many industrial applications. Engraved signs and tags provide a permanent and effective message, removing the risk of print being scratched or damaged during general cleaning and maintenance. If you can't find the size, shape, or colour that you require please contact us for a quote.

ENGRAVED VALVE TAGS

Pack of 50 - 1.5mm 2 Ply PVC Engraved Valve Tags

Our valve tags are engraved to give better quality than printed, stamped or punched alternatives. The tags are drilled at the top centre allowing you to fix to a ball chain or split ring.

NUMBERED ONLY
Each pack contains fifty sequential numbers. Please specify the number range required (eg. 1-50)

NUMBERED WITH PREFIX
Each pack contains fifty sequential numbers with prefix lettering. Please specify the number range and prefix you require (eg. GAS:1-50, T:51-100)

SINGLES

When you only need a small number of tags then you can order individually (ideal if you need a replacement tag, or a one-off). Please specify the colour and the text when ordering. E.g: 5XXXX White text on red "GTG 26".

We can also manufacture in alternative sizes, or with adhesive backing instead of drilled tags – we would be happy to provide a quote upon request.

27mm	38mm
5 3704	5 3705

ENGRAVED SIGNS

1.5mm 2 Ply PVC Engraved Adhesive Backed Signs

Ideal for creating door signs, table numbers or industrial tags, the permanently engraved surface has the advantage of being tamper proof, and is less easily damaged by general cleaning and maintenance. This range of signs are supplied with a strong self-adhesive backing for ease of installation. Please specify your text of choice when ordering.

LOCK OUT TAG OUT

The term lock out tag out (LOTO) refers to a safety procedure that ensures that machinery and energy sources are properly shut off and not unexpectedly / accidentally started up before the completion of maintenance or servicing work. These energy sources could include electrical, mechanical, hydraulic, pneumatic, chemical, radiation and thermal hazards. The point of a LOTO procedure is to identify and isolate a hazard that may cause injury if it were to start up or release stored energy during the maintenance process.

HASPS

Isolate a piece of equipment with multiple padlocks.

Six (6mm Dia.) holes on the handle for 6 individual padlocks.

25mm Clearance **5** 3313
38mm Clearance **5** 3314

PADLOCKS

Thermoplastic padlocks with a steel shackle.Temperature, chemical and corrosion resistant, UV stable.

Every padlock is supplied with a unique key for maximum security.

For keyed alike versions please call for a quote.

ROTATING GATE VALVE COVER

Gate valve covers are a simple, low cost and highly effective way to prevent unauthorised operation of valves. Valve covers consist of two flattened half moons that slip over the valves hand wheel and completely cover it. Once locked, the cover rotates freely around the hand wheel preventing operation.

BREAKER LOCKOUT

This miniature circuit breaker (MCB) lockout device is universal for many makes and models. It requires no tools to fit it on to the MCB and locks out virtually all ISO / DIN circuit breakers throughout the world.

Dimensions: 52.65 x 17.70 x 29.99mm
Body: PBT with brass thread insert
Cover: PBT and Thermoplastic
Screw: Stainless Steel
Operating Temperature: -40°C to 70°C
Corrosion Resistance" ASTM F883 Grade 6

5 3312

ELECTRICAL PLUG LOCK OUT

A simple and effective plug lockout device which is especially developed to secure all types of plugs. Completely encloses electrical plugs to prevent accidental reconnection. When closed the access hole will accept a cable up to a diameter of 25mm

Small 90 x 50 x 50mm **5** 3304
Large 180 x 80 x 80mm **5** 3305

LOCKOUT KIT FOR ELECTRICAL & MECHANICAL DEVICES

This portable lockout kit includes devices for locking off valves and electrical equipment in a handy storage bag for easy access and transportation.

1x Duffel Storage Bag (Dimensions HxWxD: 250x360x180mm)
1x (53336) Gate Valve Lockout Diameter 25mm-71.5mm
1x (53337) Gate Valve Lockout Diameter 71.5mm-134mm
1x (53338) Gate Valve Lockout Diameter 134mm-173mm
6x (53315) Safety Lockout Padlock, Keyed Different, Red (38mm shackle)
2x (53313) Safety Lockout Hasp, 25mm clearance
3x (53303) Adjustable Universal Cable Lockout (1.8m)
1x Adjustable Ball Valve Lockout (Small) - fits valves 13mm to 64mm in size
2x Universal Lockout for Miniature Circuit Breakers (Yellow)
6x MCB Lockouts (Pin-out)

5 3600

PORTABLE LOCKOUT BOX

Made of heavy-duty steel with red powder coating. Includes a lockable clasp and a slot to allow keys to be inserted when box is locked

Holds up to 12 padlocks (not included). Each member can unlock their padlock from the box and place the key into the box. No-one can then undo their padlock until keys are released.

152 x 230 x 90mm
Weight: 1.35kg

5 3332

CABLE LOCK OUT

Ideal for use on gate valves or to lockout multiple items, this cable lock out is designed to accommodate multiple padlocks to guarantee that the equipment cannot be started until every individual has completed their work and removed their padlock, which significantly reduces the risk of accidental startup and enhancing overall workplace safety.

1.8m vinyl coated steel cable
Accepts up to 5 padlocks
Up to 8mm diameter shackle
Includes label with date and signature for additional security.
ABS Plastic construction:87x70x35mm (HxWxD)

5 3303

LOCK OUT TAG OUT STATIONS

Ensure that equipment is readily available from a central location. These stations are highly visible wherever sited, the shadows of equipment types help easy inventory checking and highlights when replacements are required. Select the customised option to add company branding and / or information. If you require alternative contents or sizes, please provide details and request a quote.

GHS & COSHH INFORMATION

The classification and labelling aspects of CLP/GHS have applied to substances since 1 December 2010 and to mixtures since 1 June 2015. The final deadline fell on 1 June 2017 and applied to mixtures that were already on the market before 1 June 2015 - the transitional period was intended to give suppliers time to either deplete stock that was already on the market or to arrange for re-packaging and re-labelling of goods to be completed before 1 June 2017.

HAZARDOUS SUBSTANCE

The carriage of dangerous goods by road, rail, inland waterway, sea and air is regulated internationally by European agreements, directives and regulations, and parallel legislation in the UK. Dangerous goods are assigned to different classes depending on their hazard. The person or business shipping the goods is responsible for classifying, marking and packaging the dangerous goods. ADR sets out the requirements for the classification, packaging and certification of dangerous goods being transported by road.

As well as the requirements specific to their transportation, suppliers of dangerous goods are required by law to label their products and packaged chemicals with hazard symbols and safety advice. Recognised GHS symbols have been developed so that people handling hazardous goods know the nature of the hazard they present. GHS is the Globally Harmonised System of classification and labelling of chemicals (sometimes also referred to as CLP). GHS came into effect in 2009, phasing out the old black & orange CHIP designs by June 2015. The aim of the GHS regulation is to create a worldwide recognisable system of chemical classification and labelling.

PROTRUDING LOAD MARKERS

Where a projecting load is carried or a projecting special appliance is permanently fitted to a vehicle, red and white marker boards conforming to the requirements as prescribed in schedule 12, Part 11 of the Road Vehicles (Construction and Use) Regulations must be fitted to the vehicle or load.

Front and rear projection markers must:
- Be as near as is practicable in a transverse plane
- Not be more than 0.5m from the extreme end of the projecting load
- Not be more than 2.5m from the road surface
- Be clearly visible, within a reasonable distance, to a person using the road.

SPEED RESTRICTION SIGNS

Car parks on private land are managed using the laws of contract or trespass, whilst car parks operated by local councils are generally regulated by law. Typically, a principle sign will be displayed near the entrance to the car park describing who the car park is for, and if there are time or speed limits and details of any charges or free periods that may apply. Additional signage in and around the car park may provide more information relating to height restrictions, traffic flow and any designated parking bays.

PAVEMENT SIGN

This eco-friendly, portable, high performance sign is ideal for pavement and forecourt messages and promotions. Manufactured from durable aluminium and recycled plastic. These pavement signs give off a perfect display in all types of weather. It has a large display area of 460 x 820mm on aluminium which is securely locked into the base with a blue wedge. The base provides an excellent ballast and has been tested in winds over 70mph.

Standard product has a single sided display. Contact us for a quote if you require a double sided display.
Recycled PVC Base and Aluminium - 465 x 867 x 540mm (W x D x H) - Weight: 8.9kg.

BIRD DETERRENT SPIKES

Pack of 3 Polycarbonate Spikes - 333 x 90mm

Birds often find refuge in parking lots and perching on street lights, creating a mess on the cars and the surrounding area. Bird deterrent spikes are a simple but effective solution to prevent birds from perching and nesting. Manufactured from transparent polycarbonate these spikes are designed to blend in and are rounded so not to harm birds or maintenance personnel. Spikes can be fitted by the use of screws or with double sided weather resistant tape.

PARKING PERMIT HANG TAGS

Pack of 10

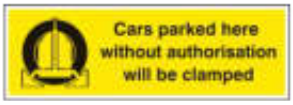

Identify authorised vehicles and manage your parking with our durable and versatile permit tags for rear-view mirrors. Ideal for visitor passes, employee permits, valet parking, and access control at hotels, restaurants, apartments, schools, or offices.

Write in the required vehicle details, expiration dates, or driver info in the designated blank space, then hang securely from any rear-view mirror to enable viewers to easily read details through windshields without obstructing driver visibility.

For custom printed alternatives please request a quote and specify the design you require.

ICE DETECTOR SIGNS

Reduce the risk involved with costly slip and fall accidents on your property by installing our Ice Detector Signs. These Ice Detector signs are a early warning system that can be used in any outdoor area, including car parks, railway stations, depots, roads, hospitals, retail locations, airports, walkways and outdoor workplaces. These signs incorporate a temperature sensitive blue reflector, which gradually revolves into sight when the temperature reaches 2°C and by –1°C is in full view. It requires no power and is virtually maintenance free.

These Ice Detector Signs have a three stage indication process utilising a temperature sensitive blue reflector, which revolves into place when temperatures start to move below 2°C. As illustrated on information panel **5** 8199, when the temperature is above 2°C, the grey indicator will show that conditions are normal. As the temperature drops, the reflector will transition to show that conditions are becoming colder and the threat of potential freezing conditions are therefore a possibility. When the temperature drops below –1°C then the reflector display will be fully blue.

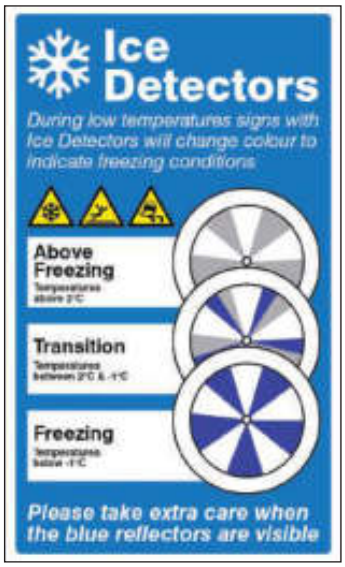

Our signs are manufactured from 3mm thick aluminium composite, making them lightweight and durable. Each sign is equipped with channelling on the rear for post mounting. They should be positioned in a way to ensure they are clearly seen at eye level, to provide the quickest indication of the temperature outside of any building or car parking facility when entering or exiting the building.

BESPOKE CAR PARK SIGNS

The Private Parking Sector Single Code of Practice was updated in 2025 and includes guidelines for car park signs in terms of design and content to ensure motorists are informed of clear parking terms and conditions.

We can supply custom signage with your required branding and information – send us details of your requirements and we will be happy to quote.

ACCESS SIGNS

Often ramps are obscured and out of immediate site. Ensure that ramps and disabled access is clearly visible and marked with this range of access signs.

RA1 & R2 TRAFFIC SIGNS

FROM 1ST JULY 2013, ANY PERMANENT SIGN DIRECTING TRAFFIC AS LISTED IN THE TRAFFIC HANDBOOK MUST BE CE MARKED.
This means road traffic signs erected on a public highways need to be manufactured in accordance with the CE Marking Standard. All of our permanent road traffic signs are manufactured in accordance with Chapter 8 & TSRGD guidelines. Our reflective material meets the specification of classes RA1 (for temporary use) and R2 (for permanent siting) under BS EN 12899. All signs on this page are supplied complete with channelling for post mounting.

PERMANENT ROAD SIGNS MUST BE CE MARKED

ALL OF OUR R2 REFLECTIVE SIGNS ARE SUPPLIED COMPLETE WITH CE MARKING. ALL OUR SIGNS ARE MANUFACTURED FROM 3MM TRAFFIC GRADE ALUMINIUM COMPOSITE, A LIGHTWEIGHT AND WEATHER RESISTANT MATERIAL IDEAL FOR EXTERNAL USE. ALUMINIUM COMPOSITE HAS NO SCRAP VALUE AND THEREFORE THE RISK OF THEFT IS REDUCED.

RA1 ZINTEC TRAFFIC SIGNS

How well signs are seen dictates how drivers react. That's why the brightness and clarity of signage is so important. Manufactured using engineering grade (Class RA1) reflective sheeting applied on to 20/22 gauge Zintec plate. These traffic management signs are designed for use with road sign frames as shown on page 113.

WHAT IS ZINTEC?

Zintec is a durable, rust resistant steel sheet that is covered in a thin layer of zinc using an electromagnetic process, making it extra strong and providing a smooth finish. As a result Zintec proves a great option for temporary traffic signs when you know they will spend time being stored or transported between use.

CUSTOM RA1 ZINTEC SIGNS AND SUPPLEMENTARY PLATES

We can manufacture zintec signs and supplementary plates with custom wording. Please advise us and we will produce to your specifications. For alternative sizes please contact us for a quote.

LOLLIPOP SIGN

Composite reflective sign on a 1500mm collapsible pole. Ergonomic handle, rubber feet and storage bag. Ultra compact, unique one-piece folding design.

DESCRIPTION	DIAMETER	MATERIAL	POLE LENGTH	CODE
Stop / Go	600mm	Reflective Composite	1500mm	**5** 8089
Stop - Works	450mm	Reflective Composite	1500mm	**5** 8090
Stop - Children	450mm	Reflective Composite	1500mm	**5** 8091

REFLECTIVE SIGNS

Available on various materials (aluminium, zintec & aluminium composite) with a choice of reflective finish. RA1 reflective (engineering grade) for temporary traffic signs.

CLASS	REFLECTIVE MATERIAL	MATERIAL	USAGE
RA1	Engineer Grade: Lower reflectivity level sheeting, lower cost	20 / 22 Gauge Zintec Plating or 3mm Traffic: Aluminium Composite	Temporary Traffic Signs
R2	High Intensity Prismatic: Retains a high reflectivity level over time	3mm Traffic Dibond: Aluminium Composite	Permanent Traffic Signs

RE-FLEX FRAME

The Re-Flex QuickFit Frame is a plastic sign frame that is compatible with our pre-drilled Re-Flex Signs. The modular design enables workers to quickly assemble signage on site. The system removes the need for stocking multiple frame shapes and sizes because interchangeable signs can be installed on the same frame.

Four antiluce droplock fasteners make changing signs fast and simple and eliminate the need for wingnuts, road frame clips and other additional small accessories which get lost and / or damaged.

Due to the frame being an all-plastic design it will not conduct electricity, corrode over time and removes the risk of theft for scrap metal. The frame is made using recycled plastic materials and can be recycled at end of life.

- Highly resistant to wind:
- Category C (19 mph) winds without ballast
- Category B (39 mph) winds with a 9kg weight
- Ultra-durable sign frame is resistant to cracking
- Lightweight and stackable 3.3kg design reduces weight and space taken up in works vehicles

Collapsed Frame Dimensions: H 935 x W 800 x D 35mm

RE-FLEX STANDING DIMENSIONS

FEATURES & BENEFITS

RE-FLEX SIGN FRAME
The 4 antiluce drop locks are compatible with all of our Re-Flex sign faces

DRIVE-OVER TESTED
Made of flexible recycled plastic, the frame is resistant to cracking

COMPACT
Sign frames stack efficiently to take up less space in works vehicles

LIGHTWEIGHT
3.3kg sign frame reduces weight in works vehicles

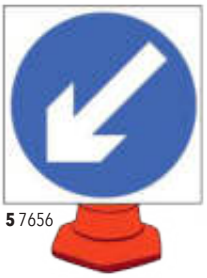

EFFICIENT
Interchangeable sign faces can be installed on site and replaced when required

PLEASE NOTE:
Re-Flex frame and sign faces are sold separately

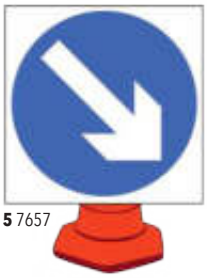

REFLECTIVE CONE SIGNS

Lightweight Reflective Polypropylene cone sign for use on a 750mm / 1000mm traffic cone (not included). The fixing loops on the rear of the sign allow quick and easy attachment to cones. A perfet solution for providing temporary messages on site.

CHAPTER 8 ROLL-UP SIGN KIT

A compact, lightweight pack of eight reflective roll-up signs, as required for road works under Chapter 8 of The Traffic Signs Manual. This kit saves space and weight compared to rigid signs and frames. Supplied in two storage bags for easy transportation. The kit also includes site layout guidance from the "Safety at Street Works" Red Book.

Kit includes tripods and the following 750mm signs:

2 x Men at Work - End
2 x Men at Work
2 x Keep Right
1 x Road Narrows Nearside
1 x Road Narrows Offside

Wind Tunnel tested to 60mph
Weight: 30kg (3.7kg per sign)

Storage Dimensions (HxWxD):
500 x 1500 x 300mm
5 7669

FOLD-UP ROAD SIGNS

These signs have been designed specifically for short to medium term work-zones, they are compact and easy to store and transport when collapsed. Tripods are manufactured from rust-proof aluminium and all metalwork has bright zinc plating to prevent corrosion. The sign faces are constructed from reinforced grey PVC with a reflective material protected by a clear PVC top layer for additional durability. These signs have a ground clearance of 300mm (as specified by UK Road Sign Legislation).

CUSTOM SUPPLEMENTARY TEXT SIGN

Create your supplementary message of choice – simply advise your required text. These reflective PVC messages are supplied with 6 rust proof press studs which attach to the appropriate fold-up sign below the printed triangular message, allowing the same sign to be used and simply updated with an alternative supplementary message.

Triangle Size	Code
600mm	**5** 7682
750mm	**5** 3730

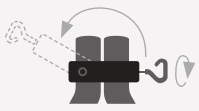

TRIANGULAR TRIPOD SET UP

Lightweight and easy to erect.

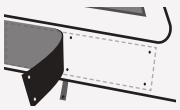

This range of signs easily fold up for compact storage and transportation purposes.

The stud strap holds the sign face when rolled up for easy transportation and storage

The shackle at the top of the tripod locks front legs open and keeps the sign face taut

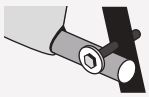

Six rustproof studs enable fixing of interchangeable supplementary text

RECTANGULAR / CIRCULAR SET UP

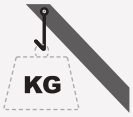

Lightweight and easy to assemble. These range of signs fold up for compact storage and transportation purposes.

At the top of the panel there is a concealed hook on springs that provides tension to keep the sign taut.

The bar at the bottom of the panel extends to hook under the spacer bolts on the front legs of the tripod.

A hook on the back leg of the tripod enables a ballast to be used in volatile weather conditions.

Includes reversible arrow
5 7628

CIRCULAR WITH REVERSIBLE ARROW

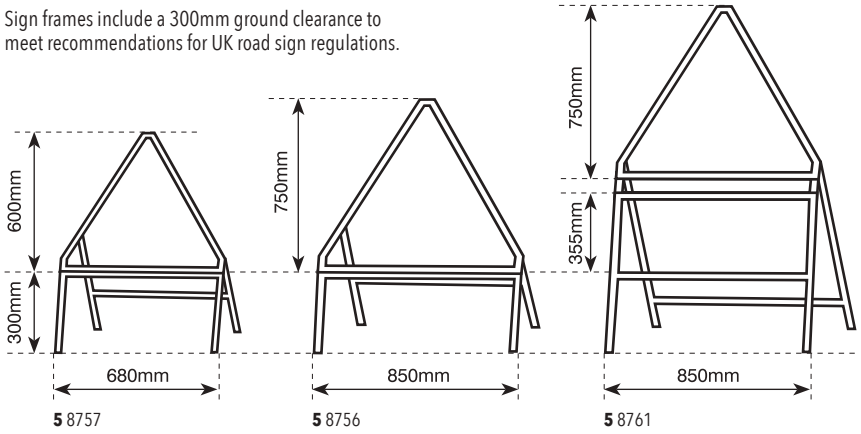

This fold up sign allows the arrow position to be changed and allows one sign to be used for either keep left or keep right.

The arrow can be removed and attached using the rust free press studs to ensure the correct direction is shown. An economical and flexible solution to traffic management.

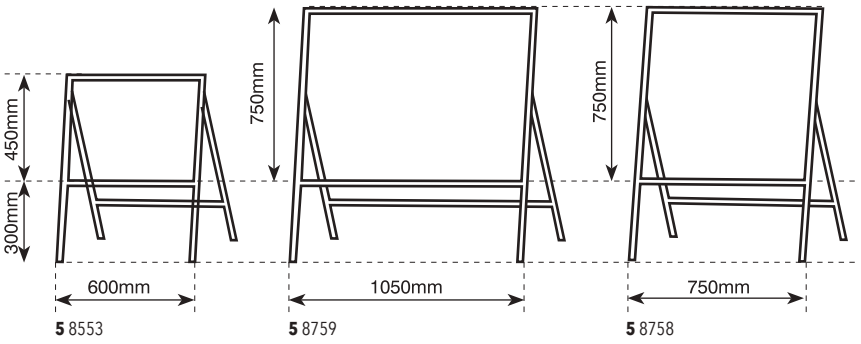

750 x 750mm
5 7681

SINGLE SIDED SIGN FRAMES Grey Zinc Painted Steel

Sign frames include a 300mm ground clearance to meet recommendations for UK road sign regulations.

5 8757 **5** 8756 **5** 8761

5 8553 **5** 8759 **5** 8758

ROAD FRAME CLIP

Keep signs securely in the frame with our Road Frame Clips. Zinc plated steel for protection against corrosion. Minimum recommended number of clips per frame is four.

5 8755

POST FIXINGS FOR PERMANENT TRAFFIC SIGNS

Whatever the sign, we can supply the necessary fixings to ensure it is clearly visible using sign frames, adhesives, posts and clips, screws and cable ties.

GREY STEEL POSTS

Grey painted steel pole for sign attachment available in a range of different lengths and diameters.

76MM DIAMETER	
3.6 metre long	**5** 8684
3.0 metre long	**5** 8678
2.5 metre long	**5** 8675
1.75 metre long	**5** 8688

50MM DIAMETER	
3.0 metre long	**5** 8769
2.5 metre long	**5** 8676
1.5 metre long	**5** 8800

ANTI-ROTATIONAL CLIP

Simple installations are achieved by inserting the 'foot' into the sign channel, and twisting the clip through 90°.

The bolt then secures the other end. Raised pips on the inner help prevent sign rotation.

STAINLESS STEEL	
50mm Diameter	**5** 8640
76mm Diameter	**5** 8682

BACK-TO-BACK CLIPS

Allows 2 signs to be fitted back to back to a steel post. Back to Back clips are fitted with M8 bolts. Two clips are required per channel whether one or two post mounting. Supplied in pairs.

STAINLESS STEEL	
50mm	**5** 8689
76mm	**5** 8725

TAMTORQUE CLAMPS & DRIVER

Designed to give a quick and reliable fix to round, square or hexagonal posts every time and can be easily reused and readjusted.

No need to cut the band to size which means no sharp edges that could snag or cut. Manufactured from strong stainless steel with a hardened tamper resistant screw with a unique seven sided socket. These clamps can only be tightened or released with a tamtorque driver.

STAINLESS STEEL CLAMP	
70-100mm Dia	**5** 8772
100-130mm Dia	**5** 8774
130-190mm Dia	**5** 8778
190-250mm Dia	**5** 8780

DRIVER	
Tamtorque	**5** 8770

2 PIECE SADDLE

Saddle that slides into the sign channel. The saddle accepts all bands up to 19mm (3/4") and as the band tightens the saddle clamps tightly against the channel holding the sign securely in place.

70 x 30 x 30mm
5 8754

SIGN FIXINGS

For more sign fixing options and accessories see pages 140-141

UNIVERSAL BASE PLATE

Universal Baseplate manufactured from 3mm coated mild steel that can support round (between 50mm - 140mm dia) and Square (between 50mm x 50mm - 120mm x 120mm) posts.

The adjustable bolt at the side of the plate locks the post in place, ensuring it is steady and won't rotate whilst the foundations are being cast. Simply slot the post onto the baseplate between the raised lugs and the M8 bolt supplied. Clamp the post tightly with the bolt using a 13mm spanner until secure and upright. The baseplate and post can then be lowered into the hole and fixed into position.

HOW TO USE:
1. Put post in base and tighten fixing
2. Put base and post into the hole and ensure post is level and straight
3. Pour concrete and leave to set prior to fitting sign to posts

Supplied with one M8 Hex head 60mm bolt.
Baseplate dimensions (WxDxH): 150x160x32mm
Weight: 450g

3mm Coated Steel
5 8691

POST CAPS

Grey plastic cap, which fits onto the end of a post for a professional looking finish.

A National Highways Safety Alert in 2025 (NHA359) highlighted the need to reduce potential driver confusion at construction sites by using only words rather than the numerical versions seen on public highways (as per TSRGD Fig.670 speed roundels). If you require alternative speeds please specify. This alert follows reports of incidents where drivers and vehicle automation systems misread works' speed limits, leading to sudden braking and hazardous situations in temporary traffic management zones.

SITE SAFETY

It is important to understand the messages on construction site safety signs; they are displayed to deliver a clear health and safety message. Failing to abide by a sign could result in the loss of your job, or even your life. Signs come in many forms, from site hoarding and entrance points, to way guidance and will often consolidate several key safety messages onto one site safety board to avoid excessive sign clutter. Site signs deliver important information to warn of hazards or requirements that must be followed.

CONTRACTOR PASS SYSTEM

Maintain a register of authorised contractors on site for use in case of emergency or for record tracking/invoice verification. Issue specific and clear ID for the contractor to display whilst on site (badge wallets sold separately). Ensure that Contractors have given commitment to site induction processes, and rules and regulations whilst on site. Record the authorised Work Location and Type of Work to be undertaken. Prompt for additional Permit to Work for where activity is high hazard or potentially hazardous. Includes notifications of Health and Safety instructions and Fire Register, whilst a data protection sheet keeps visitors' data confidential.

Includes 108 passes
Folded Pass: 103mm x 84.5mm - Book: 412mm x 280mm

BESPOKE SITE SAFETY BOARD

Creating your own site safety board has never been easier. Follow the three simple steps below and we can create a bespoke board showing your messages of choice with (or without) your company branding to ensure everyone understands your site specific rules and obligations. Manufactured on 5mm foam PVC these large format boards are perfect for positioning at site entrances to reinforce key safety messages and raising brand awareness in the process. If the templates below don't suit your needs then we are happy to quote for alternative sizes and materials.

STEP ONE: CHOOSE YOUR BOARD

Select the board size needed and whether you require it to include your company logo / branding and contact details.

SPACE FOR FOUR OF THE SIGNS BELOW

WITHOUT LOGO
5mm Foam PVC
600 x 900mm
5 8039

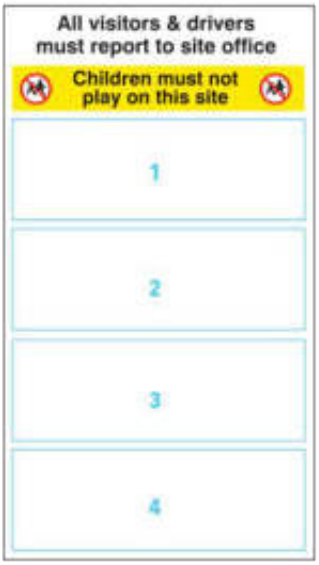

BRANDED
5mm Foam PVC
600 x 1200mm
5 8030

SPACE FOR EIGHT OF THE SIGNS BELOW

WITHOUT LOGO
5mm Foam PVC
1200 x 900mm
5 8048

BRANDED
5mm Foam PVC
1200 x 1200mm
5 8047

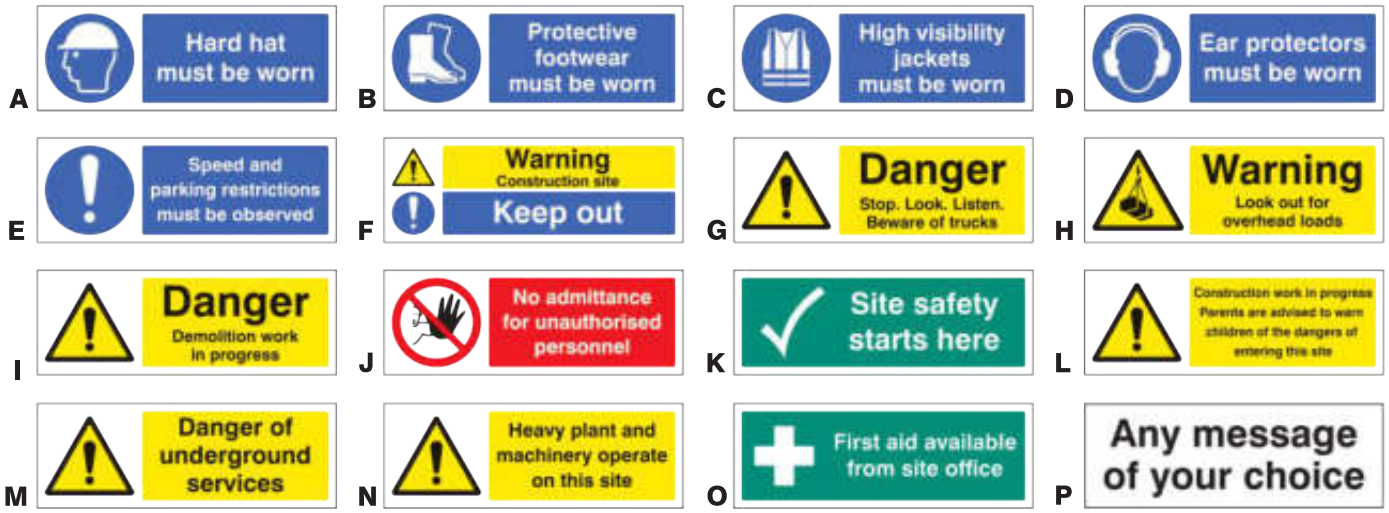

SPACE FOR FOUR OF THE SIGNS BELOW

WITHOUT LOGO
5mm Foam PVC
600 x 1000mm
5 8034

BRANDED
5mm Foam PVC
600 x 1200mm
5 8019

STEP TWO: CHOOSE THE MESSAGES

Select the messages you wish to display on your board. You can select from the following (our most popular site safety signs) however if you require a different sign you can include alternative sign messages found throughout this catalogue by choosing option P and quoting the appropriate sign code.

STEP THREE: SUPPLY LOGOS, ARTWORK AND/OR VISUALS

If you have selected a branded site safety board, please supply a high resolution copy of your logo, contact details and/or project information. EPS, PDF or Ai logo files are ideal however a clean, non pixelated high resolution jpeg should suffice (around 1500 x 1500 pixels).

Subject: 5 8047 - Construction Site Safety Board

LOREMIPSUMLOGO.jpg

Hiya!

I'm looking to get a personalised construction site safety board made up. Code 5 8047 seems like the perfect option. The eight sign options i'd like are: F N J L A B D C.

Please can you also add "Project: East Town Complex, Project Manager: James Smith.

See attached the logo to be at the top.

This shows an example of the branded board design **5** 8047 and includes a choice of 8 messages

FOR OUR RANGE OF STANDARD PRE-PRINTED SITE SAFETY BOARDS SEE PAGES 124 - 126.

SITE SAFETY BOARDS

Choose from our standard range of site safety boards. You can add your company logo, project and contact details using the **"BRANDED"** codes.

MATERIAL INFORMATION

Foam PVC is a lightweight, rigid and durable material, easily drilled or screwed through, perfect for both indoor and outdoor use making it ideal for site boards. Has the added benefit of being difficult to ignite and is self-extinguishing.

4mm fluted twin wall polypropylene sheets offer a budget option for short term site boards. 100% recyclable, lightweight and waterproof, easily drilled for fixing to fencing, and hoardings.

COURTESY SIGNS

Part 1: Design of the Chapter 8 Traffic Signs Manual (D4.15.5) states that "This sign for pedestrians gives details about the nature of street works, giving name of employer and contractor, emergency telephone number, and apologies for inconvenience. Signs must be sited where they will not cause an obstruction." These signs can be supplied with alternative sizes and messages upon request.

FLUTED POLYPROPYLENE SIGNS

This 810x610mm fluted polypropylene sign is lightweight, weatherproof, and recyclable – ideal for temporary usage. Supplied complete with four bungee ties (300mm length) for easy fixing to barriers and fencing. When ordering please provide all of the necessary information (company name and logo, job description, completion date, contractor name, contact and permit numbers) for inclusion.

ZINTEC DRYWIPE SIGNS

This 600x450mm Zintec metal sign is supplied complete with dry wipe areas so the sign can be re-used and updated for multiple jobs. When ordering please provide the necessary information and logo for inclusion. Can be placed inside a sign frame (58553 – sold separately) for displaying on site.

Key Features:

- Custom printed Company Name (and logo – optional)
- Custom printed Job Description/Information
- Dry wipe area for Contractor Name, Expected Completion Date, Emergency Telephone Number, and Permit Number Apologies for any inconvenience

SITE SAVER SAFETY SIGNS

To help encourage an environmentally friendly approach to signage we now include the appropriate recycling logo on the sign to help identify when one of our signs can be recycled and to help recycling centres correctly identify and process the materials efficiently without the need to send them into landfill. Don't worry if you can't see the sign you require, you can order any sign in any of our eco-friendly materials. See page 139 for more information.

BESPOKE BANNERS

STAND OUT. STAY SAFE. BE SEEN.

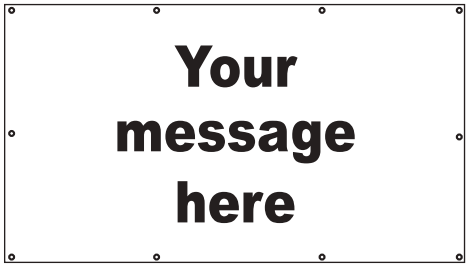

Deliver your message with impact using our custom-printed PVC banners – ideal for safety communication, branding, promotions, and more. Manufactured from durable 440gsm weatherproof PVC, these banners are designed to withstand the elements and are suitable for both indoor and outdoor use year-round.

Each banner comes with pre-fitted eyelets for quick and easy installation. The lightweight, rollaway design makes them simple to store, transport, and reuse – offering a cost-effective and versatile signage solution for any workplace. Add your logo, brand colours, or custom messaging to create high-impact visuals that demand attention.

Perfect for use on construction sites, at events, in warehouses, or around the workplace, these banners help communicate important messages with maximum visibility. Simply provide us with your design requirements or send us your artwork – we'll manufacture to your exact specifications. Need something different? We also offer alternative sizes, fire-retardant materials, mesh options, or loop fittings for scaffold attachment. Just get in touch for a tailored quote.

FOLDING BARRIER

One piece, lightweight, portable folding barrier system, conforming to UK traffic signs manual Chapter 8, supplied ready assembled with 3 or 4 sides. Single sided reflective red and white flexible panels.

3-SIDED	4-SIDED
5 7988	**5** 7989

EXTENDING BARRIER

Space saving metal barrier. Stands 1 metre high and expands to 3 metres in length.

Concertina design allows the barrier to be quickly extended for immediate use. Made of steel, assembled with rivets with lacquered paint finish. Ø25 mm post, Ø 30 mm feet

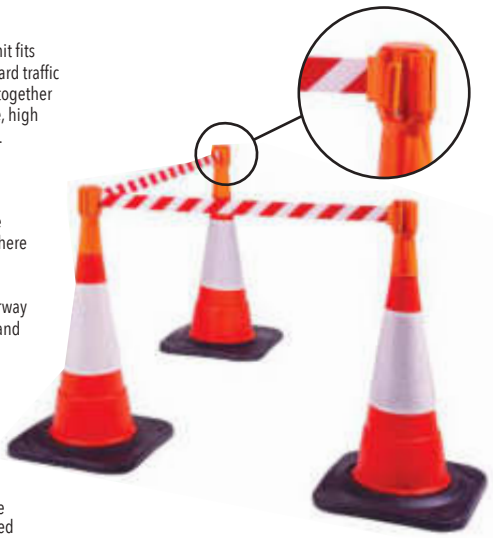

Weight: Approx 8kg
3000 x 1000mm
5 7994

CONE BARRIER

This handy Cone Barrier unit fits over the top of most standard traffic cones and connects them together using 3.65m of retractable, high visibility chevron webbing.

This is a highly effective, low cost solution to create a safety barrier. and can be used to cordon off areas where there is work in progress.

They are suitable for motorway maintenance, road-works and Health & Safety barriers.

Chevron Webbing
150mm x 3.65m
One unit required per cone
5 7983 *Cones not included

REFLECTIVE FENCE PANEL

Boost visibility and enhance site safety with our Reflective Fence Panel, designed for quick deployment and universal fit.

Manufactured from superior-grade R2 prismatic, quilted and embossed PVC, this panel delivers exceptional reflectivity and durability in all light conditions – making it ideal for construction sites, pedestrian cordons, events, or roadside services.

The panel features elastic straps and reinforced eyelets for versatile fixing options. It fits effortlessly onto Heras-style fencing, site hoarding, skips, plant equipment, or scaffolding – improving visibility for both pedestrians and vehicle operatives.

Its lightweight and rollable design ensures easy transport and compact storage, while the bold red and white chevron pattern provides a high-visibility visual cue to proceed with caution. A cost-effective, reusable solution to increase safety and awareness across a wide range of environments.

2000 x 150mm
5 3738

Additional barrier tape messages and designs are available upon request. If you cannot see the message you require please specify the wording, colours, width & length you require and we will advise of availability and price. Custom jobs may incur extended lead-times.

GOOD TO GO SAFETY

Regular equipment inspections can help identify potential faults before they develop into costly and dangerous defects. The frequency of inspections can be defined by a wide range of variants. On occasion, legislation will set out the specific time period that checks must be made or alternatively a risk assessment may define how often an inspection should be carried out (based upon the level of risk and the potential outcome if a fault goes undetected).

Good to Go Safety has three main components, the Universal Status Tag, Inspection Check Books and Tamper Evident Seals, these components make up our simple and effective preventative maintenance system. The Good to Go System can help detect damaged or faulty equipment early and can help to prevent accidents and/or reduce maintenance costs whilst ensuring that legislative requirements are met (PUWER, LOLER, WAHR) and more.

DAILY INSPECTION KIT

The daily inspection kit provides you with everything required to carry out 275 inspections (ideal for one year of daily inspections*).

KIT INCLUDES:

2 x STATUS TAGS Attach to the equipment and show its status.

11 x CHECK BOOKS (275 checklists) allowing one to be completed every working day and the findings displayed inside the status tag.

300 x TAMPER EVIDENT SEALS Deter and identify unauthorised access to the status tag

1 x WALLET & PEN Store the current book and provides a suitable writing surface and implement when completing checklists.

*based on a five day working week

WALLET & PEN

A useful accessory to protect the Good to Go Safety Check Book from general wear and tear whilst in use.

The wallet is PVC coated to help protect the checklist from contaminants such as water, dust or oil. The wallet also provides inspectors with a solid writing surface whilst they are on the move.

The Check Book (not included) slips into a secure sleeve on one side of the wallet and on the other side there are useful guidance notes regarding the Good to Go Safety system.

The ball point pen is stored inside a tight sleeve within the wallet ensuring it is always available during inspections.

PVC Coated
250 x 235 x 3mm (Flat)
250 x 115 x 8mm (Folded)
5 1308

TAMPER EVIDENT SEALS

Provide a visual indicator that an inspection has been completed and verified by a competent inspector. Using the Seals ensures the findings within the Status Tag are not tampered with and the correct status is always shown.

If a Tamper Evident Seal is missing, employees should not use the equipment until the checklist has been confirmed and a new Seal is inserted by a competent inspector.

Manufactured from blue acetal thermoplastic to offer maximum visibility against the yellow status tag. The design enables the arrow head to fit snug into the status tag and the neck has been hollowed in order to help the seal to snap easier when pulled forward.

A simple solution to provide additional security measures to equipment safety.

Polypropylene
Supplied in boxes of 100
5 1307

GOOD TO GO SAFETY

UNIVERSAL STATUS TAG

Attach to workplace equipment (usually at the point of entry) and advise employees when the equipment is safe to use or quarantined following an inspection. Unlike other tagging systems this tag has been designed to attach to all types of equipment. The channelled base allows a flush fitting onto scaffold tubes and the small sleek design ensures that it doesn't interfere with daily equipment use.

Due to being manufactured from tough, durable, UV stable, weather resistant polypropylene it can withstand harsh condition - whether attached to fixed scaffolding during a thunderstorm or attached to a ladder being tossed around in the back of a van, this status tag can resist it all.

The highly visible yellow design ensures staff are reminded to complete pre-use checks. When the tag is empty the window displays a "Do Not Use" message - this means an inspection has not been completed and the equipment should not be used. Once an inspection has been completed the status tag holds the top sheet of the checklist and the window will display the date and the equipment's status.

The design includes two sleeves to enable cable tie attachment. Four holes for riveting or screwing onto equipment and the design is lightweight enough to ensure that adhesive can be used as a fixing option.

Polypropylene
120 x 52 x 13mm (H x W x D)
5 1301

INSPECTION CHECK BOOKS

Each of the Good to Go Safety Check Books have been specifically designed to provide comprehensive inspections for workplace equipment in order to help meet the relevant legislation, industry guidelines and best practice.

Each check book includes 25 inspections. Once an inspection has been completed, the top sheet (white) is removed from the book, folded at the prompted lines and placed inside the tag to display the current status of the equipment...either "Do Not Use" or "Good to Go". The secondary sheet (yellow) is a carbon copy which should be retained within the book.

Carbon copies can provide invaluable evidence of your Safe Equipment Management System (SEMS) history in the event of an accident.

Every check list requires a name, details of the asset in question and lists a series of questions regarding the asset. Each checklist has a unique sequential number to aid audits and management documentation.

Useful guidance can be found within the inside sleeve of the Check Book to help highlight what inspectors should be looking for during the inspection.

Custom options are available. Please let us know if you have a specific requirement for equipment we don't currently offer.

Forklift:	**5** 1302	Pallet Truck:	**5** 1336	MEWP:	**5** 1322	Excavator:	**5** 1342	Telehandler:	**5** 1370	Overhead Crane:	**5** 1351	Tow Tractor:	**5** 1357	Dumper Truck:	**5** 1401

ACRYLIC DISPENSER

This acrylic check book dispenser holds up to ten check books (not included) ensuring they are not misplaced or irrevocably damaged.

The acrylic dispenser is self standing but also pre-drilled for wall mounting.

External Dimensions:
165 x 117 x 76mm (H x W x D)

Internal Dimensions:
160 x 109 x 65mm (H x W x D)
5 8099

WEATHER RESISTANT FOLDER

This industrial strength pocket is perfect for storing check books and manuals on outdoor equipment.

It comes with a high bond adhesive backing strip for semi permanent fixings to your equipment.

Clear PVC
Holds A4 sheets
5 8109

INFORMATION STATION

This information station comes with five acrylic dispensers - each with the ability to hold ten books (not included) ensuring that there's enough space for fifty inspection check books.

The information station is supplied with a high bond adhesive backing for easy application but can also be screwed into place.

10mm Foam PVC
700 x 750mm
5 1335

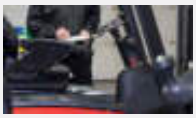

HOW IT WORKS

One of the many reasons why people like to use Good to Go Safety is its simplicity and ease to integrate into a company's safety and maintenance programme. Simply attach a tag to the relevant equipment and select the appropriate check book to start carrying out the inspection at a frequency of your choice. Inserting the completed checklist into the tag on the equipment provides a clear visual breakdown of what was checked and when – removing any assumptions or uncertainties. A duplicate copy is retained in the book for management records and providing invaluable evidence in the event of an accident.

TAG IT
Attach a universal status tag to the piece of equipment. Ideally at the point of entry.

CHECK IT
Use the appropriate check book to complete a comprehensive inspection.

RECORD IT
Complete the inspection checklist and record all findings. Sign and date.

INSERT IT
Remove the top sheet of the checklist, fold where prompted and insert into the status tag.

SECURE IT
Fit a tamper evident seal to provide additional security and ensure findings are legitimate.

DISPLAY IT
The universal status tag will now display the date and the findings of the inspection.

MAINTENANCE STATIONS

10mm Foam Board - 600 x 800mm

Wall mounted maintenance stations provides details of the Good to Go Safety equipment inspection process whilst offering easy access to check books from an organised central location. Ideal for warehouses, factories or within site offices where equipment inspections can be misplaced or damaged.

Provide your workplace with the ideal central location to store inspection check books (up to 20 can be held in the dedicated dispensers) and keep track of maintenance schedules. During an inspection, if a fault is found, the board can be updated to highlight any maintenance requirements or daily tasks, on a dedicated dry-wipe section - this will allow a fault to be tracked and updated accordingly. Simply wipe clean and re-use each time an update is completed. An A4 document wallet also enables storage of related paperwork such as user manuals, work permits etc.

CUSTOM SIGNS

Whether it's for a prestigious hotel or an after school club, our custom made signs allow you to get creative and provide a truly unique signage solution. Once you know how you want your sign to look, simply follow the steps below to begin the process of creating a bespoke sign.

1. CHOOSE YOUR MATERIAL

When ordering a sign, consideration should be given to the environment it will be located within – is it internal or external? Is it for display in a warehouse or a prestige hotel? Select the required material from the grid below. This grid is not exhaustive so if you can't see the material or size you require please contact us and we will be happy to quote.

MATERIALS	CODES	DETAILS REQUIRED FOR A CUSTOM SIGN QUOTE	PRICE
Rigid Plastic	CUST001	**Size:** Please refer to our "Popular Size" chart or specify your own **Orientation:** Landscape or Portrait **Quantity:** Please state your required quantity **Content:** Please specify or provide artwork	Supplied on Request
Self Adhesive Vinyl	CUST002		
Photoluminescent Rigid Plastic	CUST003		
Photoluminescent Self Adhesive Vinyl	CUST004		
0.9mm Aluminium	CUST005		
2mm PET (Polyethylene Terephthalate)	CUST006		
Rigid PVC with SAV Backing (Quick Fix)	CUST007		
3mm Foam PVC	CUST008		
5mm Foam PVC	CUST009		
3mm Aluminium Composite	CUST010		
0.9mm Reflective Aluminium	CUST011		
PVC Banner with Eyelets	CUST012		
4mm Fluted Polypropylene	CUST013		

POPULAR SIZE CHOICES	
80 x 80mm	400 x 200mm
100 x 75mm	400 x 300mm
100 x 100mm	400 x 400mm
100 x 150mm	450 x 150mm
150 x 150mm	600 x 200mm
200 x 75mm	600 x 400mm
200 x 100mm	600 x 450mm
200 x 150mm	800 x 600mm
200 x 200mm	900 x 600mm
210 x 297mm	1050 x 750mm
300 x 100mm	1200 x 800mm
300 x 150mm	1200 x 1200mm
300 x 250mm	2400 x 1200mm

2. SUPPLY INFORMATION

In order for our sales team to provide you an accurate quote in addition to material type, please provide the following details: Size, Orientation and Quantity.

3. PROVIDE ARTWORK

With a team of talented graphic designers and printing experts, we will ensure that each custom sign is set up and manufactured to the highest standards.
When ordering your custom sign, simply provide us with the relevant artwork or send us an image, link or sketch your sign idea and we will provide a proof for your review.

A. SKETCH & SNAP / SCAN

Mock up your desired sign, take a picture of it on your phone and send it to us via email. Please don't worry if you're not artistically inclined just remember to include material, colour, text and sizes.

B. SNAP & EMAIL

If you've seen a sign you require simply take a photo of it on your phone and send us the picture. We'll then mock up the design based on your instructions and send you a proof to approve, following receipt of your order.

C. SEND A LINK

Seen a sign you like on a website? Send us the link or a screenshot, along with any additional comments relating to the size, material, or any alterations and we'll provide you with a quote. Please be aware, there may be copyright restrictions.

IMAGE & LOGOS

Please ensure all images / logos you send are high resolution to acheive a quality print finish. A high resolution file JPEG, PDF, EPS or Ai file of your company logo is ideal. ***Taking a logo from a home page of a website will not do.*** Low-resolution images are the main reason for slow production of custom specials. Have your logo ready prior to order to ensure quick order turnaround.

If you are finding it difficult to find a high-resolution version of your logo you can sometimes find it via ***images.google.com*** simply drag your low-resolution logo file into the search bar and Google will search the internet for images that are similar. If there are any higher resolution logos found on the internet they will load. If all else fails we can reproduce your logo so it prints correctly - additional charges will apply.

INTERNAL FITTING

Whatever the sign, we can supply the necessary fixings to ensure it is clearly visible using sign frames, adhesives, posts and clips, screws and cable ties.

HANGING SNAP FRAME

Suspending posters from your ceiling is a great way to maximise your advertising space. Ideal for exhibitions, spas, hotels, restaurants or showrooms.

The aluminium snap frame rails include a rubber insert so the poster is securely gripped as it hangs.

- 2 x Slide Hangers
- 4 x End Caps
- 2 x 420mm Aluminium Rails
- Landscape and Portrait
- Holds signs up to 1mm thick
- Hangs with Suspension Kit (sold separately - see below)

5 8931

SUSPENDED FRAMES

This impact resistant polyvinyl plastic frame is an ideal solution to hanging signs. It can be used both single and double sided and is supplied complete with suspension kit for easy installation.

SIGN CLIPS

Sign clip for site saver signs.
Easy fixing to posts or fencing.

5 8687

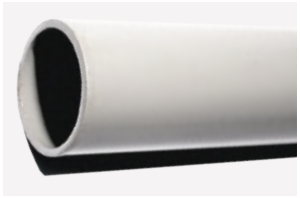

BUNGEE TIES

300mm Length
Pack of 4
5 5141

EXTERNAL FITTING

Whatever the sign, we can supply the necessary fixings to ensure it is clearly visible using sign frames, adhesives, posts, clips, screws or cable ties.

GREY STEEL POSTS

Grey painted steel pole available in a range of different lengths and diameters.

76mm DIAMETER		50mm DIAMETER	
3.6 metre	**5** 8684	3 metre	**5** 8769
3 metre	**5** 8678	2.5 metre	**5** 8676
2.5 metre	**5** 8675	1.5 metre	**5** 8800
1.75 metre	**5** 8688		

ROAD FRAME CLIPS

Keep signs securely in a road traffic frame with our Road Frame Clips. Zinc plated steel for protection against corrosion. A minimum of four clips are recommended per frame.

5 8755

ROAD FRAMES

Sign frames include a 300mm ground clearance to meet recommendations for UK road sign regulations.

Manufactured from Grey Zinc Painted Steel.

See page 113 for more options and additional information.

TRIANGLE		SQUARE		RECTANGLE	
600 x 680mm	**5** 8757	750mm	**5** 8758	600 x 450mm	**5** 8553
750 x 850mm	**5** 8756			1050 x 750mm	**5** 8759
750 x 850mm with Supp Plate	**5** 8761				

ANTI-ROTATIONAL CLIP

Simple installations are achieved by inserting the 'foot' into the sign channel, and twisting the clip through 90°. The bolt then secures the other end. Raised pips on the inner help prevent sign rotation.

STAINLESS STEEL	STAINLESS STEEL
50mm Diameter	76mm Diameter
5 8640	**5** 8682

POST CAPS

Grey plastic cap, which fits onto the end of a post for a professional looking finish and helps prevent water ingress.

GREY PLASTIC	GREY PLASTIC
50mm Dia	76mm Dia
5 8750	**5** 8685

2 PIECE SADDLE

Saddle that slides into the sign channel. The saddle accepts all bands up to 19mm (3/4") and as the band tightens the saddle clamps tightly against the channel holding the sign securely in place.

70 x 30 x 30mm
5 8754

BACK-TO-BACK CLIPS

Allows 2 signs to be fitted back to back to a steel post. Back to Back clips are fitted with M8 bolts. Two clips are required per channel whether one or two post mounting. Supplied in pairs.

STAINLESS STEEL	STAINLESS STEEL
50mm	76mm
5 8689	**5** 8725

BANDING TOOL, BUCKLE AND STRAPS

Has a tensioning capability of 2,400lbs and a built-in cutter for use with banding straps up to 19mm wide. Firstly, push band through buckle teeth towards the operator, ears up. Pass band around object and again through buckle. (For best results repeat this operation to obtain double banding). Anchor end of band by folding back under buckle. Take up slack. Then place band in slots of tool and push nose of tool against the buckle. Grip band with clamping lever and apply tension by turning handle. Maximum pressure is being applied when there is no appreciable movement of band between nose and clamping block. Then you can swing tool over buckle. This movement increases tension of band and, to avoid breakage, handle must be reversed slightly as tool is swung over, whilst maintaining band tension. Cut band with cutter lever and slide tool off in same position (or tension will be lost). Finally, hammer ears down over cut band.

	5 8753	**5** 8752

TAMTORQUE CLAMP AND DRIVER

These tamtorque clamps are manufactured from stainless steel and have been designed for clamping signs to all types of posts. They give a quick and reliable fix to round, square or hexagonal posts every time. It removes the need to cut the band to size and therefore have no sharp edges, which can snag or cut. Unlike other banding systems, the tamtorque clamp can be easily reused or readjusted. Tamtorque clamps are manufactured from high strength stainless steel and have a hardened tamper resistant screw with a unique recessed seven-sided socket. This means that they can only be tightened or released with a special Tamtorque driver. An auto locking safety buckle ensures the free end of the band is safely tidied away.
Attach to sign channel with a 2-piece saddle (sold separately).

TAMTORQUE CLAMPS

70 -100mm	100-130mm	130-190mm	190-250mm
5 8772	**5** 8774	**5** 8778	**5** 8780

TAMTORQUE DRIVER
5 8770

INSTALLATION GUIDE

1. Thread the band in the two-piece saddle and around the post.

2. Screw the band through the housing using the driver.

3. Push any remaining band into the buckle for a safe, tidy finish.

4. Hold down any excess band while finally tightening.

5. Tamtorque can be released and re-positioned if required.

UNIVERSAL BASE PLATE

This universal baseplate is manufactured from 3mm coated mild steel and can support round posts (between 50mm - 140mm dia) and square posts (between 50mm - 120mm).

The adjustable bolt at the side of the plate locks the post in place, ensuring it is steady and won't rotate whilst the foundations are being cast. Simply slot the post onto the baseplate between the raised lugs and the M8 bolt supplied. Clamp the post tightly with the bolt using a 13mm spanner until secure and upright. The baseplate and post can then be lowered into the hole and fixed into position.

Supplied with one M8 Hex head 60mm bolt.
Baseplate Dimensions (WxDxH): 150x160x32mm
Weight: 450g

SAFETY SIGNS CHECKLIST

This checklist can be used to help carry out a safety sign survey of your premises. Although not extensive, it has been designed to help highlight any clear gaps in your current set-up and identify the relevant products to help ensure compliance with British and International Standards. Upon completion of the checklist, if any of your answers are NO then use the page reference to find the relevant signs to install to rectify the issue.

OUTSIDE AND AT POINT OF ENTRY INTO THE BUILDING			PAGE REFERENCES
Is the assembly point clearly identified?	Y	N	22
If a visitor leaves through a rear fire exit, can he/she find their way to the assembly point?	Y	N	22
Is the designated smoking area clearly defined?	Y	N	23
Are all parking restrictions clearly identified?	Y	N	107 - 111
Are any speed restrictions within the grounds clearly marked?	Y	N	56, 84, 107 - 118
Can the roof be accessed and hold the weight of an average person?	Y	N	30, 53

ENTRY & RECEPTION			
Does the building clearly display at least one updated Health and Safety Law poster?	Y	N	51
Is there a 'No Smoking' sign on display in the building and / or in fleet vehicles?	Y	N	23, 24
Are facilities provided to ensure equality and inclusivity of all staff / visitors?	Y	N	81, 82, 87
As a visitor, is it clear if you need to sign in?	Y	N	79, 84, 118
If there is a CCTV system in use, is there at least one sign stating this?	Y	N	79
Where CCTV is in operation, is it clear who is running the system and how to contact them?	Y	N	79
Does the business have a clear way of informing staff of when a fire drill is due to take place?	Y	N	9

FIRE ESCAPE SIGNAGE			
Do all Exit and Fire Exit signs show an ISO 7010 compliant running man?	Y	N	16 - 22
With the exception of an office with one door out, can fire exit signs be seen from every area?	Y	N	16 - 21
Is there a fire exit sign pointing right or left above any door?	Y	N	16 - 21
Would fire exit signs be visible in smoky / dark conditions for sufficient time to exit the building?	Y	N	90 - 95

FIRE ACTION, EQUIPMENT AND DOORS			
Does every fire alarm call point have a fire action notice above it?	Y	N	12 - 14
Can all fire alarm call points be seen from a distance?	Y	N	9
Can all fire extinguishers, hose reels or fire call points be seen clearly from a distance?	Y	N	6 - 9
Have staff received instructions of what type of fires the fire extinguishers can / cannot be used on?	Y	N	6 - 7
Are fire doors indicated with a 'Fire door Keep shut' sign?	Y	N	10 - 12
Are all fire doors that open to fresh air clearly marked 'Fire exit Keep clear'?	Y	N	11, 12, 17
Are emergency door push bars or pads clearly signed with the appropriate symbol?	Y	N	17

FIRST AID			
Is the location of the first aid equipment clearly marked?	Y	N	40 - 42
Are first aiders known by all staff members?	Y	N	40
Does your company have an accident report book?	Y	N	41

TOILET / WASHROOM SIGNS			
Are the hot water taps, which could reach a harmful temperature, clearly signed?	Y	N	28
Do 'wash hands' signs currently appear in all washrooms?	Y	N	39
Are policies on energy saving and recycling clearly indicated?	Y	N	74 - 75
Are no smoking signs displayed in toilets / washrooms?	Y	N	24
Can visitors easily locate the toilets / washrooms? Is everyone catered for?	Y	N	81, 87, 96 - 98

ACCESS / RESTRICTION AROUND THE BUILDING			
Are customers, visitors or new starters aware of areas they are restricted from entering?	Y	N	26
Are all height hazards clearly marked? (e.g. low ceilings, overhangs or areas with low clearance)	Y	N	33, 58
Are unexpected trip hazards or changes in flooring levels marked?	Y	N	35
Do all visible hazards have the correct sign next to them?	Y	N	27 - 35

FACTORIES AND WAREHOUSES			
Are there any requirements to wear specific PPE? Is this highlighted at all points of entry?	Y	N	36 - 37
Is all dangerous working equipment clearly marked with measures to be aware of?	Y	N	29, 54, 101
Are all staff / visitors aware that forklifts operate in the area?	Y	N	25, 29, 54, 56
Are signs in place to warn of potential reversing vehicles?	Y	N	25, 29, 54
Are there appropriate signs next to any 'Hot Works'?	Y	N	44, 52
If any part of the building contains Asbestos, is it properly marked and managed?	Y	N	28, 52
Do all of the triangular warning signs display either 'Danger', 'Warning' or 'Caution'?	Y	N	27 - 35
Are routine equipment inspections carried out in compliance with PUWER?	Y	N	135 - 138

NOTES / COMMENTS

WHEN TO REPLACE

Check the condition of signs and replace any that are showing wear and tear or fading of graphics. Look for consistency in design too in terms of graphics and text format to maximise comprehension levels and minimise any risk of uncertainty.

BUCKLED OR BENT SIGNS

FADED OR SUN DAMAGED SIGNS

CHIPPED OR CRACKED SIGNS
